PART I—FINANCIAL INFORMATION

Item 1. Financial Statements

The accompanying unaudited Consolidated Condensed Financial Statements of Harrah's Entertainment, Inc., a Delaware corporation, have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and notes necessary for complete financial statements in conformity with generally accepted accounting principles in the United States. The results for the periods indicated are unaudited, but reflect all adjustments (consisting only of normal recurring adjustments) that management considers necessary for a fair presentation of operating results.

Results of operations for interim periods are not necessarily indicative of a full year of operations. These Consolidated Condensed Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2008.

HARRAH'S ENTERTAINMENT, INC.
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS –
SEPTEMBER 30, 2009
(UNAUDITED)

Note 1—Basis of Presentation and Organization

Harrah's Entertainment, Inc. ("Harrah's Entertainment," the "Company," "we," "our" or "us," and including our subsidiaries where the context requires) is a Delaware corporation. As of September 30, 2009, we own or manage 52 casinos, primarily under the Harrah's, Caesars and Horseshoe brand names in the United States. Our casino entertainment facilities include 33 land-based casinos, 12 riverboat or dockside casinos, three managed casinos on Indian lands in the United States, one managed casino in Canada, one combination thoroughbred racetrack and casino, one combination greyhound racetrack and casino, and one combination harness racetrack and casino. Our 33 land-based casinos include one in Uruguay, eleven in the United Kingdom, two in Egypt and one in South Africa. We view each property as an operating segment and aggregate all operating segments into one reporting segment.

On January 28, 2008, Harrah's Entertainment was acquired by affiliates of Apollo Global Management, LLC ("Apollo") and TPG Capital, LP ("TPG") in an all cash transaction, hereinafter referred to as the "Merger." Although Harrah's Entertainment continued as the same legal entity after the Merger, the accompanying Consolidated Condensed Statement of Operations, the Consolidated Condensed Statement of Cash Flows and the Consolidated Condensed Statement of Comprehensive Loss for the nine months ended September 30, 2008, are presented as the Predecessor period for the period preceding the Merger and as the Successor period for the period succeeding the Merger. As a result of the application of purchase accounting as of the Merger date, the consolidated condensed financial statements for the Successor period and the Predecessor period are presented on different bases and are, therefore, not comparable.

We have recast certain amounts for prior periods to conform to our 2009 presentation.

Note 2—Recently Issued Accounting Pronouncements

On July 1, 2009 the Financial Accounting Standards Board ("FASB") launched the Accounting Standards Codification ("ASC"), a structural overhaul to U.S. GAAP that changes from a standards-based model (with thousands of individual standards) to a topical based model. For final consensus that have been ratified by the FASB, the ASC will be updated with an Accounting Standards Update ("ASU"), which is assigned a number that corresponds to the year and that ASU's spot in the progression (e.g., 2010—1 will be the first ASU issued in 2010). ASUs will replace accounting changes that historically were issued as Statement of Financial Accounting Standards ("SFAS"), FASB Interpretations ("FIN,") FASB Staff Positions ("FSPs,") or other types of FASB Standards.

The following are accounting standards adopted or issued in the first nine months of 2009 that could have an impact on our Company.

We adopted the provisions of ASC 805, (formerly SFAS No. 141(R) (Revised 2007)) on January 1, 2009. This standard establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and non-controlling interest in the acquiree and the goodwill acquired. The revision is intended to simplify existing guidance and converge rulemaking under U.S. GAAP with international accounting rules. ASC 805 applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The primary impact to our financial results will be possible charges to income tax expense for changes in deferred tax valuation allowances and income tax uncertainties related to the Merger.

We adopted the provision of ASC 810-10-65-1, (formerly SFAS No. 160 "Non-controlling Interests in Consolidated Financial Statements – An Amendment of Accounting Research Bulletin No. 51,") on January 1, 2009. This statement requires an entity to classify non-controlling interests in subsidiaries as a separate component of equity. Additionally, transactions between an entity and non-controlling interests are required to be treated as equity transactions. As a result of the adoption of this standard, we have recast certain amounts within our 2008 financial statements to conform to the 2009 presentation.

On January 1, 2009, we adopted the provisions of ASC 815, (formerly SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133,") which requires disclosures that allow financial statement users to understand (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under ASC 815 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. Because ASC 815 applies only to financial statement disclosures, it did not have a material impact on our consolidated financial position, results of operations and cash flows.

In April 2009, the FASB issued ASC 320, (formerly FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments,") which amends the other-than-temporary impairment guidance for debt securities to make the guidance

[Table of Contents](#)

more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. This statement is effective for interim and annual reporting periods ending after June 15, 2009, but did not affect our consolidated condensed financial statements upon adoption.

In April 2009, the FASB issued ASC 825, (formerly FSP No. FAS 107-1 and Accounting Principles Board (“APB”) 28-1, “Interim Disclosures about Fair Value of Financial Instruments,”) which requires disclosures about fair value of financial instruments, whether recognized or not recognized in the statement of financial position, for interim reporting periods of publicly traded companies as well as in annual financial statements. This statement is effective for interim reporting periods ending after June 15, 2009, and have included the required disclosure in our interim financial statements for the period ended September 30, 2009.

In second quarter 2009, we adopted the provisions of ASC 855 (formerly FASB Statement No. 165, “Subsequent Events”). ASC 855 establishes general standards for accounting for and disclosing events that occur after the balance sheet date, but before the financial statements are issued or are available to be issued. We have evaluated subsequent events through November 12, 2009, which represents the date these financial statements are issued. The results of our evaluation are described further in Note 17.

In June 2009, the FASB issued ASC 810, (formerly SFAS No. 167, “Amendments to FASB Interpretation (FIN) No. 46(R),”) which is effective as of January 1, 2010. The new standard, which amends existing consolidation guidance for variable interest entities, requires a company to perform a qualitative analysis when determining whether it must consolidate a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the company that has both the power to direct the activities of a variable interest entity that most significantly impact the entity’s economic performance and either the obligation to absorb losses or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. We are currently evaluating the impact of this statement on our consolidated condensed financial statements.

In August 2009, the FASB issued ASU 2009-05 (previously exposed for comments as proposed FSP FAS 157-f) to provide guidance on measuring the fair value of liabilities under ASC 820. The ASU clarifies that the quoted price for the identical liability, when traded as an asset in an active market, is also a Level 1 measurement for that liability when no adjustment to the quoted price is required. In the absence of a Level 1 measurement, an entity must use a valuation technique that uses a quoted price or another valuation technique consistent with the principles of Topic 820 (e.g., a market approach or an income approach). The ASU is effective for the first interim or annual reporting period beginning after ASU’s issuance. We are currently evaluating the impact of this update on our financial statements.

Note 3—The Merger

The Merger was completed on January 28, 2008 and was financed by a combination of borrowings under the Company’s term loan facility due 2015, the issuance of Senior Notes due 2016 and Senior Toggle Notes due 2018, certain real estate term loans and equity investments of Apollo, TPG, co-investors and members of management. See Note 5 for a discussion of our debt.

The purchase price was approximately \$30.7 billion, including the assumption of \$12.4 billion of debt and the incurrence of approximately \$1.0 billion of transaction costs. All of the outstanding shares of Harrah’s Entertainment stock were redeemed, with stockholders receiving \$90.00 in cash for each outstanding share of common stock.

As a result of the Merger, the issued and outstanding shares of non-voting common stock and non-voting preferred stock of Harrah’s Entertainment are owned by entities affiliated with Apollo, TPG, certain co-investors and members of management, and the issued and outstanding shares of voting common stock of Harrah’s Entertainment are owned by Hamlet Holdings LLC, which is owned by certain individuals affiliated with Apollo and TPG. As a result of the Merger, our stock is no longer publicly traded.

The aggregate amortization of intangible assets for the quarter and nine months ended September 30, 2009 was \$44.2 million and \$131.7 million, respectively. Estimated annual amortization expense for the years ending December 31, 2009, 2010, 2011, 2012 and 2013 is \$175.4 million, \$159.4 million, \$155.8 million, \$154.4 million and \$152.1 million, respectively. Patented technology, contract rights, and customer relationships were valued and recorded at the time of the leveraged buyout, January 28, 2008.

Patented technology was assigned lives ranging from 1 to 10 years based on the estimated remaining usefulness of that technology for Harrah's Entertainment. Amortizing contract rights were assigned lives based on the remaining life of the contract,

[Table of Contents](#)

ranging from 3 months to 4 years. Amortizing customer relationships were given lives of 10 to 14 years based upon attrition rates and computations of incremental value derived from existing relationships.

We account for our goodwill and other intangible assets in accordance with ASC 350, which provides guidance regarding the recognition and measurement of intangible assets, eliminates the amortization of certain intangibles and requires assessments for impairment of intangible assets that are not subject to amortization at least annually.

We have completed a preliminary assessment of goodwill and other non-amortizing intangible assets as of September 30, 2009, and as a result of this assessment, recorded a charge of approximately \$1.3 billion within our Consolidated Statement of Operations in the third quarter which brings the charge recorded for the nine months ended September 30, 2009 to approximately \$1.6 billion. This impairment charge is largely a result of adjustments to our long-term operating plan as a result of the current economic climate. We are not able to finalize our impairment charge until such time as we finalize our 2010 operating plan and certain other assumptions, which we expect to complete during fourth quarter 2009 in conjunction with our annual assessment for impairment as of September 30, 2009. Changes to the preliminary 2010 operating plan or other assumptions could require us to update our assessment of impairment, which could change the required impairment charge.

For our preliminary assessment, we determined the estimated fair value of each reporting unit as a function, or multiple, of earnings before interest, taxes, depreciation and amortization ("EBITDA"), combined with estimated future cash flows discounted at rates commensurate with the Company's capital structure and the prevailing borrowing rates within the casino industry in general. Both EBITDA multiples and discounted cash flows are common measures used to value and buy or sell cash-intensive businesses such as casinos. A break-down of the impairment charge is highlighted below. We determine the estimated fair values of our non-amortizing intangible assets by using the Relief From Royalty Method under the income approach.

The table below summarizes the 2009 impairments of goodwill and other non-amortizing intangible assets:

<u>(In millions)</u>	<u>Quarter</u>	<u>Nine months</u>

Exchange Offers and Open Market Repurchases

From time to time, we may retire portions of our outstanding debt in open market purchases, privately negotiated transactions or otherwise. These repurchases will be funded through available cash from operations and from our established debt programs. Such repurchases are dependent on prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors.

As previously disclosed, on April 15, 2009, HOC completed private exchange offers to exchange approximately \$3.6 billion aggregate principal amount of new 10.0% Second-Priority Senior Secured Notes due 2018 for approximately \$5.4 billion principal amount of its outstanding debt due between 2010 and 2018. The new notes are guaranteed by Harrah's Entertainment and are secured on a second-priority lien basis by substantially all of HOC's and its subsidiaries' assets that secure the senior secured credit facilities.

[Table of Contents](#)

In addition to the exchange offers, a subsidiary of Harrah's Entertainment paid approximately \$97 million to purchase for cash certain notes of HOC with an aggregate principal amount of approximately \$523 million maturing between 2015 and 2017. The notes purchased pursuant to this tender offer will remain outstanding for HOC but will reduce Harrah's Entertainment's outstanding debt on a consolidated basis. Additionally, HOC paid approximately \$4.8 million in cash to purchase notes of approximately \$24 million aggregate principal amount from retail holders that were not eligible to participate in the exchange offers.

As a result of the exchange and tender offers, we recorded a pretax gain in the second quarter of 2009 of approximately \$4.0 billion arising from this early extinguishment of debt. As a result of the receipt of the requisite consent of lenders having loans made under the Senior Unsecured Interim Loan Agreement ("Interim Loan Agreement") representing more than 50% of the sum of all loans outstanding under the Interim Loan Agreement, waivers or amendments of certain provisions of the Interim Loan Agreement to permit HOC, from time to time, to buy back loans at prices below par from specific lenders in the form of voluntary prepayments of the loans by HOC on a non-pro rata basis are now operative. Included in the exchanged debt discussed above are approximately \$297 million of 10.0% Second-Priority Senior Secured Notes that were exchanged for approximately \$442 million principal amount of loans surrendered in the exchange offer for loans outstanding under the Interim Loan Agreement. As a result of these transactions, all loans outstanding under the Interim Loan Agreement have been retired.

The table below summarizes the open market purchase activity and exchange offers for the quarter and nine months ended September 30, 2009:

Under the American Recovery and Reinvestment Act of 2009 ("the Act"), the Company will receive temporary tax relief under the Delayed Recognition of Cancellation of Debt Income ("CODI") rules. The Act contains a provision that allows for a five-year deferral for tax purposes of CODI for debt reacquired in 2009, followed by recognition of CODI ratably over the succeeding five years. The provision applies for specified types of repurchases including the acquisition of a debt instrument for cash and the exchange of one debt instrument for another.

Note Offering and Credit Facility Amendment

On June 3, 2009, HOC entered into an amendment and waiver to its credit agreement to, among other things: (i) allow for one or more future issuances of additional secured notes or loans which may include, in each case, indebtedness secured on a pari passu basis with the obligations under its senior secured credit facilities, so long as, in each case, among other things, an agreed amount of the net cash proceeds from any such issuance are used to prepay term loans and revolving loans under such senior secured credit

[Table of Contents](#)

facilities at par; (ii) exclude from the maintenance covenant under its senior secured credit facilities (a) notes secured with a first priority lien on the assets of HOC and its subsidiaries that secure the senior secured credit facilities that collectively result in up to \$2 billion of net proceeds (provided that the aggregate face amount of all such notes shall not collectively exceed \$2.2 billion) and (b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries; (iii) subject to specified procedures, allow HOC to buyback loans from individual lenders at negotiated prices, which may be less than par and (iv) subject to the requirement to make such offers on a pro rata basis to all lenders, allow HOC to agree with certain lenders to extend the maturity of their term loans or revolving commitments, and for HOC to pay increased interest rates or otherwise modify the terms of their loans or revolving commitments in connection with such an extension

In June 2009, HOC issued \$1.375 billion principal amount of 11.25% senior secured notes due 2017 (“Original First Lien Notes”). On September 11, 2009, HOC issued an additional \$720 million principal amount of 11.25% senior secured notes due 2017 (“Additional First Lien Notes”). Both the Original First Lien Notes and the Additional First Lien Notes are secured with a first priority lien on the assets of HOC and the subsidiaries that secure the senior secured credit facilities. HOC used the net proceeds from the September 2009 private offering to repay a portion of its existing term loan and the debt under the revolving credit facility under HOC’s senior secured credit facilities, of which approximately \$0.1 billion was used to permanently reduce commitments under the revolving credit facility and approximately \$0.5 billion was used to reduce amounts due on the term loan during the third quarter 2009; remaining amounts were used to temporarily reduce amounts under the revolving credit facility.

Credit Agreement and Incremental Facility Amendment

As of September 30, 2009, our senior secured credit facilities (the “Credit Facilities”) provide for senior secured financing of up to \$7.47 billion, consisting of (i) senior secured term loan facilities in an aggregate principal amount of up to \$5.84 billion maturing on January 28, 2015 and (ii) a senior secured revolving credit facility in an aggregate principal amount of \$1.63 billion, maturing January 28, 2014, including both a letter of credit sub-facility and a swingline loan sub-facility. The credit facilities require scheduled quarterly payments on the term loans of \$5 million, with the balance paid at maturity. During the third quarter of 2009, the term loan was reduced by approximately \$0.5 billion and the revolving credit facility was permanently reduced by approximately \$0.1 billion as a result of debt retirements; remaining amounts were used to temporarily reduce amounts under the revolving credit facility. A total of \$6.6 billion in borrowings were outstanding under the Credit Facilities as of September 30, 2009, with an additional \$162.2 million committed to letters of credit that were issued under the Credit Facilities. After consideration of these borrowings and letters of credit, \$663 million of additional borrowing capacity was available to the Company under the Credit Facilities as of September 30, 2009.

The Credit Facilities also allow us to request one or more incremental term loan facilities and/or increase commitments under our revolving facility in an aggregate amount of up to \$1.75 billion. On September 26, 2009, HOC entered into an amendment to its senior secured credit facilities to allow for \$1.0 billion (of the \$1.75 billion available) of incremental term loans under the Credit Facilities (“Incremental Facility Amendment”). On October 15, 2009, HOC borrowed the \$1 billion available under the Incremental Facility Amendment, with net proceeds used to temporarily repay most of our revolving debt under the Credit Facility. The additional \$1.0 billion borrowed under the Incremental Facility Amendment matures on October 31, 2016 and bears interest at LIBOR plus 750 basis points, subject to a 200 basis point LIBOR floor.

Borrowings under the Credit Facilities bear interest at a rate equal to the then-current LIBOR rate or at a rate equal to the alternate base rate, in each case plus an applicable margin. In addition, on a quarterly basis, we are required to pay each lender (i) a commitment fee in respect of any unused commitments under the revolving credit facility and (ii) a letter of credit fee in respect of the aggregate face amount of outstanding letters of credit under the revolving credit facility. As of September 30, 2009, the Credit Facilities bore interest at LIBOR plus 300 basis points for the term loans and a portion of the revolver loan and at the alternate base rate plus 200 basis points for the remainder of the revolver loan and bore a commitment fee for unborrowed amounts of 50 basis points.

Certain covenants contained in HOC’s credit agreement require the maintenance of a senior first priority secured debt to last twelve months (LTM) Adjusted EBITDA (“Earnings Before Interest, Taxes, Depreciation and Amortization”), as defined in the agreements, ratio (“Senior Secured Leverage Ratio”). The amendment and waiver to our credit agreement excludes from the Senior Secured Leverage Ratio (a) the \$1.375 billion Original First Lien Notes issued June 15, 2009 and the \$720 million Additional First Lien Notes issued on September 11, 2009 and (b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries. Certain covenants contained in HOC’s credit agreement governing its senior secured credit facilities, the indenture and other agreements governing HOC’s 10.0% Second-Priority Senior Secured Notes due 2015 and 2018, Original First Lien Notes and Additional First Lien Notes restrict our ability to take certain actions such as incurring additional debt or making acquisitions if we are unable to meet defined Adjusted EBITDA to Fixed Charges, senior secured debt to LTM Adjusted EBITDA and consolidated debt to LTM Adjusted EBITDA ratios. The covenants that restrict additional indebtedness and the ability to make future acquisitions require an LTM Adjusted EBITDA to Fixed Charges ratio (measured on a trailing four-quarter basis) of 2.0:1.0. Failure to comply with these covenants can result in limiting our long-term growth prospects by hindering our ability to incur future indebtedness or grow through acquisitions.

Other Financing Transactions

In August 2009, Chester Downs and Marina LLC (“Chester Downs”), a majority-owned subsidiary of HOC, entered into an agreement to borrow under a senior secured term loan in the amount of \$230 million and borrowed such amount, net of original issue discount. The proceeds of the term loan were used to pay off intercompany debt due to HOC and to repurchase equity interests from certain minority partners of Chester Downs. HOC currently owns 95.0% of Chester Downs.

Derivative Instruments

We account for derivative instruments in accordance with ASC 815, (formerly SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities”). ASC 815 requires that all derivative instruments be recognized in the financial statements at fair value. Any changes in fair value are recorded in the statements of operations or in other comprehensive income/(loss), depending on whether the derivative is designated and qualifies for hedge accounting, the type of hedge transaction and the effectiveness of the hedge. The estimated fair values of our derivative instruments are based on market prices obtained from dealer quotes. Such quotes represent the estimated amounts we would receive or pay to terminate the contracts.

Our derivative instruments contain a credit risk that the counterparties may be unable to meet the terms of the agreements. We minimize that risk by evaluating the creditworthiness of our counterparties, which are limited to major banks and financial institutions. Our derivatives are recorded at their fair values, adjusted for the credit rating of the counterparty, if the derivative is an asset, or the Company, if the derivative is a liability.

We use interest rate swaps to manage the mix of our debt between fixed and variable rate instruments. As of September 30, 2009, we have 10 interest rate swap agreements for notional amounts totaling \$6.5 billion. The difference to be paid or received under the terms of the interest rate swap agreements is accrued as interest rates change and recognized as an adjustment to interest expense for the related debt. Changes in the variable interest rates to be paid or received pursuant to the terms of the interest rate swap agreements will have a corresponding effect on future cash flows. The major terms of the interest rate swap agreements are as follows.

<u>Effective Date</u>	<u>Notional Amount (In millions)</u>	<u>Fixed Rate Paid</u>	<u>Variable Rate Received as of September 30, 2009</u>	<u>Next Reset Date</u>	<u>Maturity Date</u>

Until February 15, 2008, our interest rate swap agreements were not designated as hedging instruments; therefore, gains or losses resulting from changes in the fair value of the swaps were recognized in earnings in the period of the change. On February 15, 2008, eight of our interest rate swap agreements for notional amounts totaling \$3.5 billion were designated as cash flow hedging instruments and on April 1, 2008, the remaining swap agreements were designated as cash flow hedging instruments. As of September 30, 2009, we removed the cash flow hedge designation for the \$1.0 billion swap, thus reducing the total notional amount on interest rate swaps designated as cash flow hedging instruments to \$5.5 billion. Upon designation as cash flow hedging instruments, only any measured ineffectiveness is recognized in earnings in the period of change. There was no measured ineffectiveness recognized in earnings for the quarter and nine months ended September 30, 2009, compared with a credit of \$13.9 million and a net charge of \$54.6 million, respectively, for the third quarter 2008 and the period from January 28, 2008 through September 30, 2008, due to changes in the fair values of swap agreements. Due to current interest rate levels, interest rates swaps increased interest expense \$50.0 million and \$147.6 million for the quarter and nine months ended September 30, 2009, respectively, compared to \$26.6 million and \$50.4 million, respectively, for the quarter ended September 30, 2008, and the period from January 28, 2008 through September 30, 2008. The variable rate did not materially change as a result of the October 26, 2009, reset.

Additionally, on January 28, 2008, we entered into an interest rate cap agreement to partially hedge the risk of future increases in the variable rate of the CMBS financing. The interest rate cap agreement, which was effective January 28, 2008, and terminates February 13, 2013, is for a notional amount of \$6.5 billion at a LIBOR cap rate of 4.5%. The interest rate cap was designated as a cash flow hedging instrument on May 1, 2008. The change in the fair value of the interest rate cap did not impact interest expense for the third quarter and nine months ended September 30, 2009, whereas, for the quarter ended and period from January 28, 2008 through September 30, 2008, a credit of \$0.1 million and a net charge of \$12.2 million, respectively, representing the change in the fair value, are included in Interest expense in our Consolidated Condensed Statement of Operations.

Subsequent to the end of the third quarter 2009, on October 15, 2009, we borrowed \$1 billion under the Incremental Facility Amendment and used a majority of the net proceeds to temporarily repay most of our revolving debt under the Credit Facility. As a result, we no longer have a sufficient amount of outstanding debt under the same terms as our interest rate swap agreements to support hedge accounting treatment for the full \$6.5 billion in interest rate swaps. As previously discussed, we have removed the cash flow hedge designation and discontinued hedge accounting for the last hedge we executed, specifically the \$1 billion hedge entered into on April 25, 2008. At September 30, 2009, \$22.8 million of existing deferred losses related to this hedge contract is included in accumulated other comprehensive income on our consolidated condensed balance sheet. Beginning October 1, 2009, these deferred losses will be amortized into income over the original remaining term of the hedged forecasted transactions that are still considered to be probable of occurring. Therefore, we will record \$8.7 million as an increase to interest expense and other comprehensive income over the next 12 months. Any future changes in fair value of the interest rate swap will be recognized in earnings during the period in which the changes in value occur.

Note 6—Stock-Based Employee Compensation

As of September 30, 2009, there was approximately \$50.8 million of total unrecognized compensation cost related to stock option grants. In 2009, our share-based compensation expense consists primarily of time-based options and performance-based options that have been granted to management, other personnel and key service providers.

There was no material stock-based compensation activity during the nine months ended September 30, 2009.

In connection with the Merger, outstanding and unexercised stock options and stock appreciation rights, whether vested or unvested, and unvested restricted stock were cancelled and converted into the right to receive cash, accelerating the recognition of compensation cost of \$82.8 million, which was included in Merger and integration costs in the Consolidated Condensed Statement of Operations in the period from January 1, 2008 through January 27, 2008 (Predecessor period).

Note 7—Preferred and Common Stock

Preferred Stock

On January 28, 2008, our Board of Directors adopted a resolution authorizing the creation of a series of preferred stock known as the Non-Voting Perpetual Preferred Stock. The total number of Preferred Stock shares authorized are 40,000,000, par value \$0.01 per share, stated value \$100.00 per share.

On a quarterly basis, each share of non-voting preferred stock accrues dividends at a rate of 15.0% per annum, compounded quarterly. Dividends will be paid in cash, when, if, and as declared by the Board of Directors, subject to approval by the appropriate

[Table of Contents](#)

regulators. We currently do not expect to pay cash dividends. Dividends on the non-voting perpetual preferred stock are cumulative. As of September 30, 2009, such dividends in arrears are \$557.0 million. Shares of the non-voting preferred stock rank prior in right of payment to the non-voting and voting common stock and are entitled to a liquidation preference.

Upon the occurrence of any liquidating event, each holder of non-voting preferred stock shall have the right to require the Company to repurchase each outstanding share of non-voting preferred stock before any payment or distribution shall be made to the holders of non-voting common stock, voting common stock or any other junior stock. After the payment to the holders of non-voting preferred stock of the full preferential amounts, the holders of non-voting preferred stock shall have no right or claim to any of the remaining assets of the Company. Non-voting preferred stock may be converted into non-voting common stock on a pro rata basis with the consent of the holders of a majority of the non-voting preferred stock. Neither the non-voting preferred stock nor the non-voting common stock has any voting rights.

Common Stock

As of September 30, 2009, the authorized common stock of the Company totaled 80,000,020 shares, consisting of 20 shares of voting common stock, par value \$0.01 per share and 80,000,000 shares of non-voting common stock, par value \$0.01 per share.

The voting common stock has no economic rights or privileges, including rights in liquidation. The holders of voting common stock shall be entitled to one vote per share on all matters to be voted on by the stockholders of the Company.

Subject to the rights of holders of preferred stock, when, if, and as dividends are declared on the common stock, the holders of non-voting common stock shall be entitled to share in dividends equally, share for share.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, holders of non-voting common stock will receive a pro rata distribution of any remaining assets after payment of or provision for liabilities and the liquidation preference on preferred stock, including the non-voting preferred stock, if any.

Note 8—Acquisition of Non-Controlling Interest

In the third quarter 2009, Chester Downs and Marina LLC (“Chester Downs”), a majority-owned subsidiary of HOC, entered into an agreement to borrow under a senior secured term loan in the amount of approximately \$230.0 million, net of original issue discount. The proceeds were used to pay off intercompany debt due to HOC and to purchase interests from other owners of Chester Downs. As a result of this acquisition, HOC increased its ownership interest to approximately 95.0% of Chester Downs. The purchase was accounted for as an equity transaction.

Note 9—Write-downs, Reserves and Recoveries

Our operating results include various pretax charges to record tangible asset impairments, contingent liability reserves, project write-offs, demolition costs, recoveries of previously recorded reserves and other non-routine transactions. The components of Write-downs, reserves and recoveries for continuing operations were as follows:

(In millions)	Successor				Predecessor
	Quarter ended September 30,		Nine months ended September 30,	For the period from Jan. 28, 2008 Through Sept. 30, 2008	For the period from Jan. 1, 2008 Through Jan. 27, 2008

Total write-downs, reserves and recoveries	<u>\$ 24.3</u>	<u>\$46.8</u>	<u>\$ 78.6</u>	<u>\$ (61.8)</u>	<u>\$ 4.7</u>

We account for long-lived tangible assets to be held and used by evaluating their carrying value in relation to the operating performance and estimated future undiscounted cash flows generated by such assets, when indications of impairment are present. For the quarter and nine months ended September 30, 2009, we recorded impairment charges related to long-lived tangible assets of \$35.7 million and \$43.7 million, respectively. The third quarter charge was related to the Company's office building in Memphis, Tennessee due to the relocation to Las Vegas, Nevada of those corporate functions formerly performed at that location. Although the Company is marketing this building for sale, the building does not meet all requirements under generally accepted accounting principles to be classified as held for sale at this time.

Write-off of abandoned assets represents costs associated with various projects that are determined to no longer be viable.

During the third quarter ended September 30, 2009, an approximate \$30 million judgment against the Company was vacated. This amount was previously charged to write-downs, reserves and recoveries in 2006 and was reversed accordingly upon the vacated judgment.

Remediation costs relate to property remediation projects at certain of our Las Vegas properties.

Efficiency programs represent costs incurred to identify efficiencies and cost savings. Expenses in 2009 and 2008 represent costs related to additional projects aimed at stream-lining corporate and operations functions to achieve further cost savings and efficiencies.

Insurance proceeds in excess of deferred costs represent proceeds received from our insurance carriers for hurricane damages incurred in 2005. The proceeds included in Write-downs, reserves and recoveries are for those properties that we still own and operate. Proceeds related to properties that were subsequently sold are included in Discontinued operations in our Consolidated Statements of Operations.

Termination of contracts in 2008 represents amounts recognized in connection with abandonment of buildings under long-term lease arrangements.

Note 10—Income Taxes

We are subject to income taxes in the United States as well as various states and foreign jurisdictions in which we operate. We account for income taxes under ASC 740, (formerly FASB Statement No. 109, "Accounting for Income Taxes,") whereby deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial

[Table of Contents](#)

statements or income tax returns. Deferred tax assets and liabilities are determined based on differences between financial statement carrying amounts of existing assets and their respective tax bases using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company's income tax provision/(benefit) and effective tax rate were as follows:

<u>(In millions, except effective tax rate)</u>	<u>Successor</u>			<u>For the period from Jan. 28, 2008 Through Sept. 30, 2008</u>	<u>Predecessor For the period from Jan. 1, 2008 Through Jan. 27, 2008</u>

Difference between tax at effective vs. statutory rate	651.1	13.2	842.1	42.7	17.9

For the quarter ended September 30, 2009, the difference between the Company's recorded provision and the tax benefit that would result from applying the U.S. statutory rate of 35.0% is primarily attributable to: (i) non-deductible goodwill impairments; (ii) a net increase in liability for unrecognized tax benefit ("UTB"); and (iii) Merger-related deferred tax liabilities booked in the quarter.

For the nine months ended September 30, 2009, the difference between the Company's recorded provision and the provision that would result from applying the U.S. statutory rate of 35.0% is primarily attributable to: (i) non-deductible goodwill impairments; (ii) state income taxes; (iii) a net increase in liability for UTB; and (iv) Merger-related deferred tax liabilities.

For the quarter and nine months ended September 30, 2008, the difference between the Company's recorded tax benefit and the tax benefit that would result from applying the U.S. statutory rate of 35.0% is primarily attributable to: (i) non-deductible Merger costs; (ii) international income taxes; and (iii) state income taxes.

We file income tax returns, including returns for our subsidiaries, with federal, state, and foreign jurisdictions. As a large taxpayer, we are under continual audit by the Internal Revenue Service ("IRS") on open tax positions, and it is possible that the amount of the liability for unrecognized tax benefits could change during the next twelve months. Our 2004 federal income tax year was closed and the IRS audit of our 2006 federal income tax year concluded during the quarter ended September 30, 2009. Our 2005 and 2007 federal income tax years have reached the IRS appeals stage of the audit process. Our 2008 federal income tax year is currently under audit by the IRS.

We also are subject to exam by various state and foreign tax authorities, although tax years prior to 2004 are generally closed as the statutes of limitations have lapsed. However, various subsidiaries are still being examined by the New Jersey Division of Taxation for tax years beginning with 1999.

We classify reserves for tax uncertainties within Accrued expenses and Deferred credits and other in our Consolidated Condensed Balance Sheets, separate from any related income tax payable or deferred income taxes. In accordance with ASC 740, reserve amounts relate to any potential income tax liabilities resulting from uncertain tax positions as well as potential interest or penalties associated with those liabilities. For the quarter ended September 30, 2009, we recorded an increase in gross UTB of \$60.0 million as a result of tax positions taken during a prior year. The increase in gross UTB related to costs associated with the Merger. Year-to-date we have recorded increases in our gross UTB of \$140.0 million. The year-to-date increases relate to costs associated with the Merger, cancellation of indebtedness and other identified uncertain tax positions. Partially offsetting the increase in overall UTB in the quarter ended September 30, 2009, was a decrease of UTB of \$29.2 million (yielding a net increase in gross UTB for the quarter of \$30.8 million). The \$29.2 million of decrease consisted of \$19.4 million related to settlements with tax authorities and \$9.8 million as a result of the expiration of the 2004 federal income tax statute of limitations. The total amount of the increase in gross UTB during the quarter ended September 30, 2009, which, if recognized, would benefit the effective tax rate, is \$60.0 million. Year to date, the total amount of the increase in gross UTB that, if recognized, would benefit the effective tax rate, is \$112.0 million. The total amount of decrease in gross UTB during the quarter ended September 30, 2009, which, upon recognition, benefited the effective tax rate, was \$3.0 million.

Note 11—Fair Value Measurements

We adopted the required provisions of ASC 820, (formerly FASB Statement No. 157, “Fair Value Measurements,”) on January 1, 2008. ASC 820 outlines a valuation framework and creates a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and the related disclosures. Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date. Level 2 inputs are from other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable and should be used to measure fair value to the extent that observable inputs are not available.

ASC 820, (formerly FASB Staff Position 157-2, “Effective Date of FASB Statement No. 157,”) deferred the effective date of ASC 820 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at estimated fair value in an entity’s financial statements on a recurring basis (at least annually). We adopted the provisions of ASC 820 for non-recurring measurements made for non-financial assets and non-financial liabilities on January 1, 2009. Based on our preliminary assessment for impairment as of September 30, 2009, we determined that, based on the projected performance, which reflects factors impacted by current market conditions and our initial annual budget process, certain of our goodwill and other intangible assets were impaired. We expect to complete the assessment of goodwill and other intangible assets during the fourth quarter 2009. The impairment analysis on goodwill and certain intangible assets includes an assessment using various Level 2 (EBITDA multiples and discount rate) and Level 3 (forecast cash flows) inputs. See Note 4 Goodwill and Other Intangible Assets for more information on the application of ASC 820 to goodwill and other intangible assets.

Under ASC 825, (formerly FASB Statement No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities-including an amendment of SFAS No. 115,”) entities are permitted to choose to measure many financial instruments and certain other items at fair value. We did not elect the fair value measurement option under ASC 825 for any of our financial assets or financial liabilities.

Items Measured at Fair Value on a Recurring Basis

The following table shows the fair value of our financial assets and financial liabilities that are required to be measured at fair value as of September 30, 2009.

<u>(In millions)</u>	<u>Balance at September 30, 2009</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Assets:				
Cash equivalents	\$ 367.7	\$367.7	\$ —	\$ —
Derivative instruments	55.0	—	55.0	—
Investments	88.9	88.9	—	—
Liabilities:				
Derivative instruments	(412.6)	—	(412.6)	—

The following section describes the valuation methodologies used to estimate or measure fair value, key inputs, and significant assumptions:

Cash equivalents – Cash equivalents are investments in money market accounts and utilize Level 1 inputs to determine fair value.

Derivative instruments – The estimated fair values of our derivative instruments are derived from market prices obtained from dealer quotes for similar assets or liabilities. Such quotes represent the estimated amounts we would receive or pay to terminate the contracts. Derivative instruments are included in Deferred costs and other and Deferred credits and other in our Consolidated Condensed Balance Sheets. See Note 5 for more information on our derivative instruments.

Investments – Investments are primarily debt and equity securities that are traded in active markets, have readily determined market values and utilize Level 1 inputs. These investments are included in Prepayments and other in the Consolidated Condensed Balance Sheets.

Items Disclosed at Fair Value

Long-Term Debt – The fair value of the Company’s debt has been calculated based on the borrowing rates available as of September 30, 2009, for debt with similar terms and maturities and market quotes of our publicly traded debt. As of September 30, 2009, the Company’s outstanding debt had a fair value of \$21.1 billion and a carrying value of \$19.3 billion. The Company’s interest rate swaps used for hedging purposes had a fair value and carrying value of \$(412.6) million, and our interest rate cap agreement had a fair value and carrying value of \$55.0 million at September 30, 2009.

Note 12—Commitments and Contingent Liabilities

Contractual Commitments

We continue to pursue additional casino development opportunities that may require, individually and in the aggregate, significant commitments of capital, up-front payments to third parties and development completion guarantees.

The agreements pursuant to which we manage casinos on Indian lands contain provisions required by law that provide that a minimum monthly payment be made to the tribe. That obligation has priority over scheduled repayments of borrowings for development costs and over the management fee earned and paid to the manager. In the event that insufficient cash flow is generated by the operations to fund this payment, we must pay the shortfall to the tribe. Subject to certain limitations as to time, such advances, if any, would be repaid to us in future periods in which operations generate cash flow in excess of the required minimum payment. These commitments will terminate upon the occurrence of certain defined events, including termination of the management contract. Our aggregate monthly commitment for the minimum guaranteed payments, pursuant to these contracts for the three managed Indian-owned facilities now open, which extend for periods of up to 50 months from September 30, 2009, is \$1.2 million. Each of these casinos currently generates sufficient cash flows to cover all of its obligations, including its debt service.

In February 2008, we entered into an agreement with the State of Louisiana whereby we extended our guarantee of an annual payment obligation of JCC Fulton Development, LLC, our wholly-owned subsidiary, of \$60 million owed to the State of Louisiana. The guarantee was extended for one year to end March 31, 2011.

In addition to the guarantees discussed above, as of September 30, 2009, we had commitments and contingencies of \$1,354.5 million, including construction-related commitments.

Severance Agreements

As of September 30, 2009, we have severance agreements with 13 of our executives that provide for payments to the executives in the event of their termination after a change in control, as defined. These agreements provide, among other things, for a compensation payment of 1.5 to 3.0 times the executives' average annual compensation, as defined. The estimated amount, computed as of September 30, 2009, that would be payable under the agreements to these executives aggregated approximately \$37.8 million. The estimated amount that would be payable to these executives does not include an estimate for the tax gross-up payment, provided for in the agreements, that would be payable to the executive if the executive becomes entitled to severance payments which are subject to federal excise tax imposed on the executive. These severance agreements terminate February 1, 2010.

Employment Agreements

We entered into an employment agreement with one executive that replaced his severance agreement as of January 28, 2008. The employment agreement provides for payments to the executive in the event of his termination after a change in control, as defined, and provides for, among other things, a compensation payment of 3.0 times the executive's average annual compensation, as defined. The estimated amount, computed as of September 30, 2009, that would be payable under the agreement to the executive based on the compensation payment aggregated approximately \$17.3 million. The estimated amount that would be payable to the executive does not include an estimate for the tax gross-up payment, provided for in the agreement, that would be payable to the executive if the executive becomes entitled to severance payments which are subject to federal excise tax.

Self-Insurance

We are self-insured for various levels of general liability, workers' compensation, employee medical and other coverage. Insurance claims and reserves include accruals of estimated settlements for known claims, as well as accruals of actuarial estimates of incurred but not reported claims.

Note 13—Litigation

Litigation Related to Employee Benefit Obligations

In December 1998, Hilton Hotels Corporation ("Hilton") spun-off its gaming operations as Park Place Entertainment Corporation ("Park Place"). In connection with the spin-off, Hilton and Park Place entered an Employee Benefits and Other Employment Allocation Agreement dated December 31, 1998 (the "Allocation Agreement") whereby Park Place assumed or retained, as applicable, liabilities and excess assets, if any, related to the Hilton Hotels Retirement Plan (the "Hilton Plan") based on the accrued benefits of Hilton employees and Park Place employees. Park Place changed its name to Caesars Entertainment, Inc. ("Caesars") and the Company acquired Caesars in June 2005. In 1999 and 2005, the United States District Court for the District of Columbia certified two nationwide class action lawsuits against Hilton alleging that the Hilton Plan's benefit formula was back loaded in violation of ERISA, and that Hilton failed to properly calculate Hilton Plan participants' service for vesting purposes.

[Table of Contents](#)

In May 2009, the Court issued a decision granting summary judgment to the plaintiffs. In November 2009, the plaintiffs and Hilton are scheduled to attend a Court-mandated mediation session in an effort to determine an appropriate remedy.

The Company received a letter from Hilton in October 2009 alleging potential liability under the above described claims and under the terms of the Allocation Agreement. The Company may be responsible for a portion of the liability resulting from the claims noted above. We are monitoring the status of the lawsuit, remedy determination, and our potential liability, if any.

Certain of our legal proceedings are reported in our Annual Report on Form 10-K for the year ended December 31, 2008, with material developments since that report described below.

Litigation Related to Our Operations

In April 2000, the Saint Regis Mohawk Tribe (the "Tribe") granted Caesars the exclusive rights to develop a casino project in the State of New York. On April 26, 2000, certain individual members of the Tribe purported to commence a class action proceeding in a "Tribal Court" in Hogsburg, New York, against Caesars seeking to nullify Caesars' agreement with the Tribe. On March 20, 2001, the "Tribal Court" purported to render a default judgment against Caesars in the amount of \$1,787 million. Prior to our acquisition of Caesars in June 2005, it was believed that this matter was settled pending execution of final documents and mutual releases. Although fully executed settlement documents were never provided, on March 31, 2003, the United States District Court for the Northern District of New York dismissed litigation concerning the validity of the judgment, without prejudice, while retaining jurisdiction to reopen that litigation, if, within three months thereof, the settlement had not been completed. On June 22, 2007, a lawsuit was filed in the United States District Court for the Northern District of New York against us by certain trustees of the Catskill Litigation Trust alleging the Catskill Litigation Trust had been assigned the "Tribal Court" judgment and seeks to enforce it, with interest. According to a "Tribal Court" order, accrued interest through July 9, 2007, was approximately \$1,014 million. On September 28, 2009, the Court entered summary judgment against the Tribe and dismissed the action, ruling that although alternative grounds were presented in the motion, the subject matter of the action was asserted in a prior action and settled by and oral agreement to end that matter with prejudice. On October 27, 2009, the Tribe filed a Notice of Appeal to the United States Court of Appeals for the Second Circuit. We intend to oppose the appeal.

Litigation Related to Development

On March 6, 2008, Caesars Bahamas Investment Corporation ("CBIC"), an indirect subsidiary of HOC terminated its previously announced agreement to enter into a joint venture in the Bahamas with Baha Mar Joint Venture Holdings Ltd. and Baha Mar JV Holding Ltd. (collectively, "Baha Mar"). To enforce its rights, on March 13, 2008, CBIC filed a complaint against Baha Mar, and the Baha Mar Development Company Ltd., in the Supreme Court of the State of New York, seeking a declaratory judgment with respect to CBIC's rights under the Subscription and Contribution Agreement (the "Subscription Agreement"), between CBIC and Baha Mar, dated January 12, 2007. Pursuant to the Subscription Agreement, CBIC agreed, subject to certain conditions, to subscribe for shares in Baha Mar Joint Venture Holdings Ltd., which was formed to develop and construct a casino, golf course and resort project in the Bahamas. The complaint alleges that (i) the Subscription Agreement grants CBIC the right to terminate the agreement at any time prior to the closing of the transactions contemplated therein, if the closing does not occur on time; (ii) the closing did not occur on time; and, (iii) CBIC exercised its right to terminate the Subscription Agreement, and to abandon the transactions contemplated therein. The complaint seeks a declaratory judgment that the Subscription Agreement has been terminated in accordance with its terms and the transactions contemplated therein have been abandoned.

Baha Mar and Baha Mar Development Company Ltd. ("Baha Mar Development") filed an Amended Answer and Counterclaims against CBIC and a Third Party Complaint dated June 18, 2008 against HOC in the Supreme Court of the State of New York. Baha Mar and the Baha Mar Development allege that CBIC wrongfully terminated the Subscription Agreement and that CBIC wrongfully failed to make capital contributions under the Joint Venture Investors Agreement, by and between CBIC and Baha Mar, dated January 12, 2007. In addition, Baha Mar and Baha Mar Development allege that HOC wrongfully failed to perform its purported obligations under the Harrah's Baha Mar Joint Venture Guaranty, dated January 12, 2007. Baha Mar and Baha Mar Development assert claims for breach of contract, breach of fiduciary duty, promissory estoppel, equitable estoppel and negligent misrepresentation. Baha Mar and Baha Mar Development seek (i) declaratory relief; (ii) specific performance; (iii) the recovery of alleged monetary damages; (iv) the recovery of attorneys fees, costs, and expenses and (v) the dismissal with prejudice of CBIC's Complaint. CBIC and HOC have each answered, denying all allegations of wrongdoing. In the second quarter 2009, both sides filed motions for summary judgment.

At the conclusion of oral argument on October 6, 2009, on cross motions for summary judgment, the Court stated that it was going to grant summary judgment to CBIC and HOC and that Baha Mar Development's claims are dismissed. The Court stated that it will issue a written opinion, but the opinion has not been issued to date.

Litigation Related to the December 2008 Exchange Offer

On January 9, 2009, S. Blake Murchison and Willis Shaw filed a purported class action lawsuit in the United States District Court for the District of Delaware, Civil Action No. 09-00020-SLR, against Harrah's Entertainment, Inc. and its board of directors, and Harrah's Operating Company, Inc. The lawsuit was amended on March 4, 2009, alleging that the bond exchange offer which closed on December 24, 2008, wrongfully impaired the rights of bondholders. The amended complaint alleges, among others, breach of the bond indentures, violation of the Trust Indenture Act of 1939, equitable rescission, and liability claims against the members of the board. The amended complaint seeks, among other relief, class certification of the lawsuit, declaratory relief that the alleged violations occurred, unspecified damages to the class, and attorneys' fees. On April 30, 2009, the defendants filed a motion to dismiss the amended complaint. Prior to responding to the motion to dismiss, the defendants stipulated to the plaintiff's request to dismiss the lawsuit, without prejudice, which the court entered on June 18, 2009. Both sides have reserved the right to request the court to award attorneys fees.

Other

In addition, the Company is party to ordinary and routine litigation incidental to our business. We do not expect the outcome of any pending litigation to have a material adverse effect on our consolidated financial position or results of operations.

Note 15—Insurance Proceeds Related to Hurricane-Damaged Properties

In first quarter 2008, we entered into a settlement agreement with our insurance carriers related to the remaining unsettled claims associated with damages incurred in Mississippi from Hurricane Katrina in 2005, and the final payment of \$338.1 million was received. Insurance proceeds exceeded the net book value of the impacted assets and costs and expenses that were reimbursed under our business interruption claims, and the excess is recorded as income in the line item, Write-downs, reserves and recoveries, for properties included in continuing operations and in the line item, (Loss)/income from discontinued operations, for properties included in discontinued operations. We recorded \$185.4 million in the Successor period from January 28, 2008 through September 30, 2008, for insurance proceeds included in Write-downs, reserves and recoveries and \$141.1 million in the Successor period from January 28, 2008 through September 30, 2008, and \$0.1 million in the Predecessor period from January 1, 2008 through January 27, 2008, for insurance proceeds included in Discontinued operations in our Consolidated Statements of Operations.

Note 16—Related Party Transactions

In connection with the Merger, Apollo, TPG and their affiliates entered into a services agreement with Harrah's Entertainment relating to the provision of financial and strategic advisory services and consulting services. We paid Apollo and TPG a one-time transaction fee of \$200 million for structuring the Merger and debt financing negotiations. This amount was included in the overall

[Table of Contents](#)

purchase price of the Merger. In addition, we pay a monitoring fee for management services and advice. Fees for the quarter and nine months ended September 30, 2009 were \$7.2 million and \$21.5 million, respectively. For the quarter ended September 30, 2008, fees were \$7.6 million. For the period from January 28, 2008, through September 30, 2008, these fees totaled \$20.4 million, which are included in Corporate expense in our Consolidated Statements of Operations for the applicable Successor periods. We also reimburse Apollo and TPG for expenses that they incur related to their management services.

In connection with our debt exchange in April 2009, certain debt held by Apollo and TPG was exchanged for new debt and the related party gain on that exchange totaling \$80.0 million, net of deferred tax of \$52.3 million, has been recorded to stockholders' equity.

During the quarter ended June 30, 2009, our sponsors completed their own tender offer and purchased some of our Second Lien Notes.

Note 17—Subsequent Events

Additional Borrowings Under Credit Facilities

On September 26, 2009, HOC entered into an amendment to its senior secured credit facilities to allow for \$1.0 billion (of the \$1.75 billion available) of incremental term loans under the Credit Facilities ("Incremental Facility Amendment"). On October 15, 2009, HOC borrowed the \$1 billion available under the Incremental Facility Amendment, and used a majority of the proceeds to temporarily repay most of our revolving debt under the Credit Facilities. The additional \$1.0 billion borrowed under the Incremental Facility Amendment matures on October 31, 2016 and bears interest at LIBOR plus 750 basis points, subject to a 200 basis point LIBOR floor.

CMBS Repurchases

On October 22, 2009, HET entered into purchase and sale agreements with certain lenders to acquire mezzanine loans ("CMBS Loans") under its commercial mortgaged-back securities ("CMBS") financing. HET will purchase CMBS Loans using up to an aggregate amount of \$250 million of cash, at a purchase price of between 25 and 30 cents per \$1.00 principal amount of CMBS Loans, depending on certain circumstances.

Note 18—Consolidating Financial Information of Guarantors and Issuers

As of September 30, 2009, HOC is the issuer of certain debt securities that have been guaranteed by Harrah's Entertainment and certain subsidiaries of HOC. The following consolidating schedules present condensed financial information for Harrah's Entertainment, the parent and guarantor; HOC, the subsidiary issuer; guarantor subsidiaries of HOC; and non-guarantor subsidiaries of Harrah's Entertainment and HOC, which includes the CMBS properties, as of September 30, 2009, and December 31, 2008, and for the Successor companies for the quarter and nine months ended September 30, 2009, and the quarter ended September 30, 2008, and the period January 28, 2008, through September 30, 2008, and for the Predecessor companies for the period from January 1, 2008, through January 27, 2008.

In connection with the CMBS financing for the Merger, HOC spun off to Harrah's Entertainment the following casino properties and related operating assets: Harrah's Las Vegas, Rio, Flamingo Las Vegas, Harrah's Atlantic City, Showboat Atlantic City, Harrah's Lake Tahoe, Harvey's Lake Tahoe and Bill's Lake Tahoe. Upon receipt of regulatory approvals that were requested prior to the closing of the Merger, in May 2008, Paris Las Vegas and Harrah's Laughlin and their related operating assets were spun out of HOC to Harrah's Entertainment and Harrah's Lake Tahoe, Harvey's Lake Tahoe, Bill's Lake Tahoe and Showboat Atlantic City and their related operating assets were transferred to HOC from Harrah's Entertainment. We refer to the May spin-off and transfer as the "Post-Closing CMBS Transaction." The financial information included in this section reflects ownership of the CMBS properties pursuant to the spin-off and transfer of the Post-Closing CMBS Transaction.

In lieu of providing separate unaudited financial statements for the guarantor subsidiaries, we have included the accompanying consolidating condensed financial statements based on our understanding of the Securities and Exchange Commission's interpretation and application of ASC 470-S99, (formerly Rule 3-10 of the Securities and Exchange Commission's Regulation S-X and Staff Accounting Bulletin No. 53). Management does not believe that separate financial statements of the guarantor subsidiaries are material to our investors. Therefore, separate financial statements and other disclosures concerning the guarantor subsidiaries are not presented.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the financial position and operating results of Harrah’s Entertainment, Inc. (referred to in this discussion, together with its consolidated subsidiaries where appropriate, as “Harrah’s Entertainment,” the “Company,” “we,” “our” and “us”) for the quarter and nine months ended September 30, 2009 and 2008, updates, and should be read in conjunction with, Management’s Discussion and Analysis of Financial Condition and Results of Operations presented in our 2008 Annual Report on Form 10-K.

ACQUISITION BY PRIVATE EQUITY FIRMS

On January 28, 2008, Harrah's Entertainment was acquired by affiliates of Apollo Global Management, LLC ("Apollo") and TPG Capital, LP ("TPG") in an all cash transaction, hereinafter referred to as the "Merger." In accordance with Generally Accepted Accounting Principles, we have separated our historical financial results for the period subsequent to the merger (the "Successor" period) and the period prior to the Merger (the "Predecessor" period). We have also combined the Successor and Predecessor periods results for the nine months ended September 30, 2008 in the presentations below because we believe that it enables a meaningful presentation and comparison of results. We have recast certain amounts for prior periods to conform to our 2009 presentation. Because the quarter and nine months ended September 30, 2009 income from operations includes impairment charges, the following tables also present income from operations before impairment charges to provide more meaningful comparisons of results. This presentation is not in accordance with GAAP.

OPERATING RESULTS AND DEVELOPMENT PLANS

The executive officers of our Company review operating results, assess performance and make decisions related to the allocation of resources on a property-by-property basis. We, therefore, believe that each property is an operating segment and that it is appropriate to aggregate and present the operations of our Company as one reportable segment. In order to provide more detail than would be possible on a consolidated basis, our properties have been grouped as follows to facilitate discussion of our operating results:

<u>Las Vegas</u>	<u>Atlantic City</u>	<u>Louisiana/Mississippi</u>	<u>Iowa/Missouri</u>

	Harrah's Laughlin	Caesars Windsor ⁽³⁾	
		London Clubs International ⁽⁴⁾	

⁽¹⁾ Not wholly-owned by Harrah's Entertainment.

⁽²⁾ Managed, not owned.

⁽³⁾ We have a 50 percent interest in Windsor Casino Limited, which manages this property. The province of Ontario owns the complex.

⁽⁴⁾ Operates 11 casino clubs in the United Kingdom, 2 in Egypt and 1 in South Africa. One of the properties is managed and two others are not wholly-owned.

Included in income from operations for each grouping are project opening costs and write-downs, reserves and recoveries. Project opening costs include costs incurred in connection with expansion and renovation projects at various properties. Write-downs, reserves and recoveries include various pretax charges to record tangible asset impairments, contingent liability reserves, project write-offs, demolition costs, recoveries of previously recorded charges and other non-routine transactions.

Revenues for the quarter and nine months ended September 30, 2009, were impacted by the current economic environment, which has reduced customer spending, particularly in the Las Vegas and Atlantic City markets. The earnings impact of the declines in revenue in 2009 compared to the same periods in 2008 was partially offset by company-wide cost savings initiatives that began in the third quarter of 2008. Income from continuing operations, net of tax, for the nine months ended September 30, 2009, reflects pre-tax charges of \$1.6 billion for impairment of goodwill and certain intangible assets, which were more than offset by second quarter 2009 gains on early extinguishments of debt totaling \$4.3 billion, pre-tax. The nine months ended September 30, 2008, included expenses incurred in connection with the Merger, primarily related to the accelerated vesting of employee stock options, stock appreciation rights ("SARs") and restricted stock, higher interest expense and losses on the early extinguishments of debt, partially offset by proceeds from the settlement of insurance claims related to hurricane damage in 2005.

For the quarter and nine months ended September 30, 2009, revenues and income from operations were lower than in the quarter and nine months ended September 30, 2008, driven by lower spend per visitor and declines in the group-travel business. While hotel occupancy remained strong, average room rates declined. Loss from operations for the nine months ended September 30, 2009, includes a total charge of \$1.13 billion for the impairment of goodwill for certain Las Vegas properties, of which \$255.1 million and \$875.8 million were recorded in the second and third quarters of 2009, respectively.

An expansion and renovation of Caesars Palace Las Vegas was completed on the Octavius Tower, a new hotel tower with 110,000 square feet of additional meeting and convention space, three 10,000-square-foot, luxury villa suites and an expanded pool and garden area. We have deferred completion of approximately 660 rooms, including 75 luxury suites, within the hotel tower expansion as a result of current economic conditions impacting the Las Vegas tourism sector. The estimated total capital expenditures for the project, excluding the costs to complete the deferred rooms, are expected to be \$685.4 million, \$628.9 million of which had been spent as of September 30, 2009. The convention center is now open, and the remainder of the expansion project, other than the deferred rooms, was completed during the third quarter of 2009.

Revenues and income from operations for the quarter and nine months ended September 30, 2009, were lower than in the quarter and nine months ended September 30, 2008, due to reduced visitation and spend per trip. The Atlantic City market continues to be affected by competition from three slot facilities in eastern Pennsylvania and one in Yonkers, New York and the current weak economic environment. Included in loss from operations in the third quarter 2009 is a \$178.6 million charge recorded in the quarter for impairment of goodwill of certain of the Atlantic City properties.

Revenues for the quarter and nine months ended September 30, 2009, from our properties in Louisiana and Mississippi were lower compared to the same periods in 2008 driven by lower visitation due to the current economic environment. Included in income from operations in the third quarter 2009 is a \$6.0 million charge recorded in the quarter for impairment of goodwill of certain of the properties within the Louisiana/Mississippi region.

Income from operations for the nine months ended September 30, 2008, included insurance proceeds of \$185.4 million from the final settlement of claims related to the 2005 hurricanes. The proceeds are included in Write-downs, reserves and recoveries in our 2008 Consolidated Condensed Statement of Operations. Excluding the insurance proceeds in 2008 from the year-over-year

comparison, operating margin for the Louisiana/Mississippi group of properties improved 2.6 percentage points as a result of cost savings initiatives.

Construction began in third quarter 2007 on Margaritaville Casino & Resort in Biloxi. We have halted construction on this project, and will continue to review and refine the project in light of the current economic environment, market conditions on the Gulf Coast and the current financing environment. We license the Margaritaville name from an entity affiliated with the singer/songwriter Jimmy Buffett. As of September 30, 2009, \$178.8 million had been spent on this project.

Revenues were lower for the quarter ended September 30, 2009 due to reduced visitation and spend per trip. For the nine months ended September 30, 2009, revenue results were slightly higher driven by the renovation and expansion at Horseshoe Hammond that opened in August 2008. Cost savings initiatives at properties in the region also contributed to the increase in income from operations for both the quarter and year-to-date periods in 2009. Loss from operations compared unfavorably in the third quarter 2009 versus the prior year period as a result of a \$180.7 million charge recorded in the 2009 quarter for impairments of goodwill and non-amortizing intangibles of certain of the Illinois / Indiana region properties.

For the quarter and nine months ended September 30, 2009, revenues from our Nevada properties outside of Las Vegas were lower than in the respective 2008 period due to lower customer spend per trip. In the third quarter 2009, the impact of lower revenues on income from operations was partially offset by cost savings initiatives implemented at the properties. Despite decreased revenues and income from operations in the first nine months of 2009 when compared to the same period of 2008, operating margin remained stable due to cost savings initiatives.

Managed, international and other results include income from our managed properties, results of our international properties, certain marketing and administrative expenses, including development costs, income from our non-consolidated affiliates, and our businesses related to the World Series of Poker® (“WSOP”) brand. The decline in revenues for the quarter and nine months ended September 30, 2009, reflected the impact of the current economic environment on our managed and international properties. For the quarter and nine months ended September 30, 2009, (Loss)/income from operations in our international businesses improved due to cost savings initiatives at our London Clubs properties.

Other losses from operations for the quarter and nine months ended September 30, 2009, were unfavorably impacted by a charges for the impairment of certain tangible and intangible assets. For the quarter and nine months ended September 30, 2009, impairment charges of goodwill and other non-amortizing intangible assets totaled \$87.5 million and \$129.5 million, respectively. In addition, an impairment charge was recorded on tangible assets which totaled approximately \$35.8 million, which was partially offset by reversal of litigation accruals totaling approximately \$30 million.

Corporate expense increased in the quarter and nine months ended September 30, 2009 from the same periods in the prior year due to expenses related to the debt exchange offer and other advisory services, partially offset by the continued realization of cost savings initiatives that began in the third quarter of 2008.

Merger and integration costs in 2008 include costs in connection with the Merger, including the expense related to the accelerated vesting of employee stock options, SARs and restricted stock.

Amortization of intangible assets was slightly higher in the quarter and nine months ended September 30, 2009 when compared to the same periods in 2008 due to finalization of the purchase price allocation in connection with the Merger. Until the finalization of the purchase price allocation in the fourth quarter of 2008, amortization was estimated based on a preliminary purchase price allocation.

We completed debt exchanges in December 2008 and April 2009, and have purchased debt on the open market throughout 2009, the combination of which has reduced our overall outstanding indebtedness as of September 30, 2009 when compared to September 30, 2008. This reduced indebtedness has in turn reduced our interest expense for the quarter and nine months ended September 30, 2009 when compared to the period from January 28, 2008 through September 30, 2008 and the period from January 1, 2008 through January 27, 2008. We also have in place interest rate swap agreements to fix interest rates on a portion of our debt as further discussed in the DEBT AND LIQUIDITY section herein. Interest expense for the nine months ended September 30, 2008 included losses resulting from changes in the fair value of our interest rate swap agreements prior to their designation as hedging instruments.

A change in interest rates on variable-rate debt will impact our financial results. For example, assuming a constant outstanding balance for our variable-rate debt, excluding \$6.5 billion of variable-rate debt for which we have entered into interest rate swap agreements, for the next twelve months, a hypothetical 1% increase in corresponding interest rates would increase interest expense for the next twelve months by approximately \$67.0 million, or \$17.0 million per quarter. At September 30, 2009, the 3-Month USD LIBOR rate was 0.298%. A hypothetical reduction of this rate to 0% would decrease interest expense for the next twelve months by approximately \$22.5 million, or \$5.6 million per quarter. At September 30, 2009, our variable-rate debt, excluding \$6.5 billion of variable-rate debt for which we have entered into interest rate swap agreements, represents approximately 34.4% of our total debt, while our fixed-rate debt is approximately 65.6% of our total debt. In addition to the swap agreements, we have an interest rate cap agreement for a notional amount of \$6.5 billion at a LIBOR cap rate of 4.5%.

Losses on early extinguishments of debt for the quarter ended September 30, 2009 represent write-off of unamortized discounts related to our purchases of certain of our debt in the open market. Gains on early extinguishments of debt for the first nine months of 2009 represent discounts related to our exchange of certain outstanding debt for new debt in the first half of 2009 and purchases of debt in the open market during the first nine months of 2009. Losses on early extinguishments of debt in 2008 represented premiums paid and the write-offs of unamortized deferred financing costs and market value premiums related to debt retired in connection with the Merger.

Other income includes higher interest income on the cash surrender value of life insurance policies in the quarter and nine months ended September 30, 2009. Other income in the nine months ended September 30, 2008, included receipt of insurance proceeds related to executive life insurance policies related to the Company's deferred compensation plan. The effective tax provision rate for the quarter and nine months ended September 30, 2009, is higher than the federal statutory rate due primarily to permanent book/tax differences, state income taxes and the non-deductibility of the goodwill impairment charge. The effective tax benefit rate for the quarter and nine months ended September 30, 2008, was lower than the federal statutory rate due primarily to non-deductible merger costs, permanent book/tax differences, international income taxes, and state income taxes.

CAPITAL SPENDING AND DEVELOPMENT

In addition to the development and expansion projects discussed in the OPERATING RESULTS AND DEVELOPMENT PLANS section, we also perform on-going refurbishment and maintenance at our casino entertainment facilities to maintain our quality standards, and we continue to pursue development and acquisition opportunities for additional casino entertainment facilities that meet our strategic and return on investment criteria. Prior to the receipt of necessary regulatory approvals, the costs of pursuing development projects are expensed as incurred. Construction-related costs incurred after the receipt of necessary approvals are capitalized and depreciated over the estimated useful life of the resulting asset. Project opening costs are expensed as incurred.

Our planned development projects, if they go forward, will require, individually and in the aggregate, significant capital commitments and, if completed, may result in significant additional revenues. The commitment of capital, the timing of completion and the commencement of operations of casino entertainment development projects are contingent upon, among other things, negotiation of final agreements and receipt of approvals from the appropriate political and regulatory bodies. We must also comply with covenants and restrictions set forth in our debt agreements. Cash needed to finance projects currently under development as well as additional projects being pursued is expected to be made available from operating cash flows, established debt programs (see DEBT AND LIQUIDITY), joint venture partners, specific project financing, guarantees of third-party debt and additional debt offerings. Our capital spending for the first nine months of 2009 totaled approximately \$411.9 million. Estimated total capital expenditures for 2009 are expected to be between \$445 million and \$520 million.

DEBT AND LIQUIDITY

Our Consolidated Condensed Statements of Cash Flows reflect the impact on our consolidated operations of the success of our marketing programs and on-going cost containment focus and, in 2009, the impact of current economic conditions. For the first nine months of 2009, we reported cash flows provided by operating activities of \$397.6 million compared to \$668.0 million in the first nine months of 2008.

Our cash and cash equivalents totaled approximately \$948.2 million at September 30, 2009, compared to \$650.5 million at December 31, 2008.

We believe that our cash and cash equivalents balance, our cash flows from operations and the financing sources discussed herein will be sufficient to meet our expected operating requirements during the next twelve months and to fund capital expenditures. In addition, we may consider issuing additional debt in the future to refinance existing debt or to finance specific capital projects.

A substantial portion of the financing of the Company is comprised of credit facility and notes financing obtained by Harrah's Operating Company, Inc. ("HOC"), a wholly-owned subsidiary of Harrah's Entertainment. This financing is neither secured nor guaranteed by Harrah's Entertainment's other wholly-owned subsidiaries, including certain subsidiaries that own properties that secure \$6.5 billion of commercial mortgage-backed securities ("CMBS"). Pro forma information pertaining solely to the consolidated financial position and results of HOC and its subsidiaries can be found in Exhibit 99 of this Form 10-Q.

At September 30, 2009, \$162.0 million, face amount, of our 7.875% Senior Subordinated Notes due March 15, 2010, \$228.6 million, face amount, of our 5.5% Senior Notes due July 1, 2010, and \$25.0 million, face value of our 6.0% Secured Debt due July 15, 2010, are classified as long-term in our Consolidated Condensed Balance Sheet because the Company currently has both the intent and the ability to refinance these notes under our revolving credit facility.

The majority of our debt is due after 2010. Payments of short-term debt obligations and other commitments are expected to be made from operating cash flows and from borrowings under our established debt programs. Long-term obligations are expected to be paid through operating cash flows, refinancing of debt, joint venture partners or, if necessary, additional debt offerings.

Exchange Offers and Open Market Repurchases

From time to time, we may retire portions of our outstanding debt in open market purchases, privately negotiated transactions or otherwise. These repurchases will be funded through available cash from operations and from our established debt programs. Such repurchases are dependent on prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors.

As previously disclosed, on April 15, 2009, HOC completed private exchange offers to exchange approximately \$3.6 billion aggregate principal amount of new 10.0% Second-Priority Senior Secured Notes due 2018 for approximately \$5.4 billion principal

[Table of Contents](#)

amount of its outstanding debt due between 2010 and 2018. The new notes are guaranteed by Harrah's Entertainment and are secured on a second-priority lien basis by substantially all of HOC's and its subsidiaries' assets that secure the senior secured credit facilities. In addition to the exchange offers, a subsidiary of Harrah's Entertainment paid approximately \$97 million to purchase for cash certain notes of HOC with an aggregate principal amount of approximately \$523 million maturing between 2015 and 2017. The notes purchased pursuant to this tender offer will remain outstanding for HOC but will reduce Harrah's Entertainment's outstanding debt on a consolidated basis. Additionally, HOC paid approximately \$4.8 million in cash to purchase notes of approximately \$24 million aggregate principal amount from retail holders that were not eligible to participate in the exchange offers.

As a result of the exchange and tender offers, we recorded a pretax gain in the second quarter of 2009 of approximately \$4.0 billion arising from this early extinguishment of debt. As a result of the receipt of the requisite consent of lenders having loans made under the Senior Unsecured Interim Loan Agreement ("Interim Loan Agreement") representing more than 50% of the sum of all loans outstanding under the Interim Loan Agreement, waivers or amendments of certain provisions of the Interim Loan Agreement to permit HOC, from time to time, to buy back loans at prices below par from specific lenders in the form of voluntary prepayments of the loans by HOC on a non-pro rata basis are now operative. Included in the exchanged debt discussed above are approximately \$297 million of 10.0% Second-Priority Senior Secured Notes that were exchanged for approximately \$442 million principal amount of loans surrendered in the exchange offer for loans outstanding under the Interim Loan Agreement. As a result of these transactions, all loans outstanding under the Interim Loan Agreement have been retired.

The table below summarizes the open market purchase activity and exchange offers for the quarter and nine months ended September 30, 2009:

Under the American Recovery and Reinvestment Act of 2009 ("the Act"), the Company will receive temporary tax relief under the Delayed Recognition of Cancellation of Debt Income ("CODI") rules. The Act contains a provision that allows for a five-year deferral for tax purposes of CODI for debt reacquired in 2009, followed by recognition of CODI ratably over the succeeding five years. The provision applies for specified types of repurchases including the acquisition of a debt instrument for cash and the exchange of one debt instrument for another.

Note Offering and Credit Facility Amendment

On June 3, 2009, HOC entered into an amendment and waiver to its credit agreement to, among other things: (i) allow for one or more future issuances of additional secured notes or loans which may include, in each case, indebtedness secured on a pari passu basis with the obligations under its senior secured credit facilities, so long as, in each case, among other things, an agreed amount of the net cash proceeds from any such issuance are used to prepay term loans and revolving loans under such senior secured credit facilities at par; (ii) exclude from the maintenance covenant under its senior secured credit facilities (a) notes secured with a first priority lien on the assets of HOC and its subsidiaries that secure the senior secured credit facilities that collectively result in up to \$2 billion of net proceeds (provided that the aggregate face amount of all such notes shall not collectively exceed \$2.2 billion) and (b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries; (iii) subject to specified procedures, allow HOC to buyback loans from individual lenders at negotiated prices, which may be less than par and (iv) subject to the requirement to make such offers on a pro rata basis to all lenders, allow HOC to agree with certain lenders to extend the maturity of their term loans or revolving commitments, and for HOC to pay increased interest rates or otherwise modify the terms of their loans or revolving commitments in connection with such an extension

During June 2009, HOC issued \$1.375 billion principal amount of 11.25% senior secured notes due 2017 (“Original First Lien Notes”). On September 11, 2009, HOC issued an additional \$720 million principal amount of 11.25% senior secured notes due 2017 (“Additional First Lien Notes”). Both the Original First Lien Notes and the Additional First Lien Notes are secured with a first priority lien on the assets of HOC and the subsidiaries that secure the senior secured credit facilities. HOC used the net proceeds from the September 2009 private offering to repay a portion of its existing term loan and the debt under our revolving credit facility under HOC’s senior secured credit facilities, of which approximately \$0.1 billion was used to permanently reduce commitments under the revolving credit facility and approximately \$0.5 billion was used to reduce amounts due on the term loan during the third quarter 2009; remaining amounts were used to temporarily reduce amounts under the revolving credit facility.

Credit Agreement and Incremental Facility Amendment

As of September 30, 2009, our senior secured credit facilities (the “Credit Facilities”) provide for senior secured financing of up to \$7.47 billion, consisting of (i) senior secured term loan facilities in an aggregate principal amount of up to \$5.84 billion maturing on January 28, 2015 and (ii) a senior secured revolving credit facility in an aggregate principal amount of \$1.63 billion, maturing January 28, 2014, including both a letter of credit sub-facility and a swingline loan sub-facility. The credit facilities require scheduled quarterly payments on the term loans of \$5 million, with the balance paid at maturity. During the third quarter of 2009, the term loan was reduced by approximately \$0.5 billion and the revolving credit facility was permanently reduced by approximately \$0.1 billion as a result of debt retirements; remaining amounts were used to temporarily reduce amounts under the revolving credit facility. A total of \$6.6 billion in borrowings were outstanding under the Credit Facilities as of September 30, 2009, with an additional \$162.2 million committed to letters of credit that were issued under the Credit Facilities. After consideration of these borrowings and letters of credit, \$663 million of additional borrowing capacity was available to the Company under the Credit Facilities as of September 30, 2009.

The Credit Facilities also allow us to request one or more incremental term loan facilities and/or increase commitments under our revolving facility in an aggregate amount of up to \$1.75 billion. On September 26, 2009, HOC entered into an amendment to its senior secured credit facilities to allow for \$1.0 billion (of the \$1.75 billion available) of incremental term loans under the Credit Facilities (“Incremental Facility Amendment”). On October 15, 2009, HOC borrowed the \$1 billion available under the Incremental Facility Amendment, with the net proceeds used to temporarily repay most of our revolving debt under the Credit Facility. The additional \$1.0 billion borrowed under the Incremental Facility Amendment matures on October 31, 2016 and bears interest at LIBOR plus 750 basis points, subject to a 200 basis point LIBOR floor.

Borrowings under the Credit Facilities bear interest at a rate equal to the then-current LIBOR rate or at a rate equal to the alternate base rate, in each case plus an applicable margin. In addition, on a quarterly basis, we are required to pay each lender (i) a commitment fee in respect of any unused commitments under the revolving credit facility and (ii) a letter of credit fee in respect of the aggregate face amount of outstanding letters of credit under the revolving credit facility. As of September 30, 2009, the Credit Facilities bore interest at LIBOR plus 300 basis points for the term loans and a portion of the revolver loan and at the alternate base rate plus 200 basis points for the remainder of the revolver loan and bore a commitment fee for unborrowed amounts of 50 basis points.

Certain covenants contained in HOC’s credit agreement require the maintenance of a senior first priority secured debt to last twelve months (LTM) Adjusted EBITDA (“Earnings Before Interest, Taxes, Depreciation and Amortization”), as defined in the agreements, ratio (“Senior Secured Leverage Ratio”). The amendment and waiver to our credit agreement excludes from the Senior Secured Leverage Ratio (a) the \$1.375 billion Original First Lien Notes issued June 15, 2009 and the \$720 million Additional First Lien Notes issued on September 11, 2009 and (b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries. Certain covenants contained in HOC’s credit agreement governing its senior secured credit facilities, the indenture and other agreements governing HOC’s 10.0% Second-Priority Senior Secured Notes due 2015 and 2018,

[Table of Contents](#)

Original First Lien Notes and Additional First Lien Notes restrict our ability to take certain actions such as incurring additional debt or making acquisitions if we are unable to meet defined Adjusted EBITDA to Fixed Charges, senior secured debt to LTM Adjusted EBITDA and consolidated debt to LTM Adjusted EBITDA ratios. The covenants that restrict additional indebtedness and the ability to make future acquisitions require an LTM Adjusted EBITDA to Fixed Charges ratio (measured on a trailing four-quarter basis) of 2.0:1.0. Failure to comply with these covenants can result in limiting our long-term growth prospects by hindering our ability to incur future indebtedness or grow through acquisitions.

We believe we are in compliance with HOC's credit agreement and indentures, including the Senior Secured Leverage Ratio, as of September 30, 2009. If our LTM Adjusted EBITDA were to decline significantly from the level achieved at September 30, 2009, it could cause us to exceed the Senior Secured Leverage Ratio and could be an Event of Default under HOC's credit agreement. However, we could implement certain actions in an effort to minimize the possibility of a breach of the Senior Secured Leverage Ratio, including reducing payroll and other operating costs, deferring or eliminating certain maintenance, delaying or deferring capital expenditures, or selling assets. In addition, under certain circumstances, our credit agreement allows us to apply the cash contributions received by HOC as a capital contribution to cure covenant breaches. However, there is no guarantee that such contributions will be able to be secured.

Other Financing Transactions

In August 2009, Chester Downs and Marina LLC ("Chester Downs"), a majority-owned subsidiary of HOC, entered into an agreement to borrow under a senior secured term loan in the amount of \$230 million and borrowed such amount, net of original issue discount. The proceeds of the term loan were used to pay off intercompany debt due to HOC and to repurchase equity interests from certain minority partners of Chester Downs. HOC currently owns 95.0% of Chester Downs.

Derivative Instruments

We account for derivative instruments in accordance with ASC 815, (formerly SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities,"). ASC 815 requires that all derivative instruments be recognized in the financial statements at fair value. Any changes in fair value are recorded in the statements of operations or in other comprehensive income/(loss), depending on whether the derivative is designated and qualifies for hedge accounting, the type of hedge transaction and the effectiveness of the hedge. The estimated fair values of our derivative instruments are based on market prices obtained from dealer quotes. Such quotes represent the estimated amounts we would receive or pay to terminate the contracts.

Our derivative instruments contain a credit risk that the counterparties may be unable to meet the terms of the agreements. We minimize that risk by evaluating the creditworthiness of our counterparties, which are limited to major banks and financial institutions. Our derivatives are recorded at their fair values, adjusted for the credit rating of the counterparty, if the derivative is an asset, or the Company, if the derivative is a liability.

We use interest rate swaps to manage the mix of our debt between fixed and variable rate instruments. As of September 30, 2009, we have 10 interest rate swap agreements for notional amounts totaling \$6.5 billion. The difference to be paid or received under the terms of the interest rate swap agreements is accrued as interest rates change and recognized as an adjustment to interest expense for the related debt. Changes in the variable interest rates to be paid or received pursuant to the terms of the interest rate swap agreements will have a corresponding effect on future cash flows. The major terms of the interest rate swap agreements are as follows.

<u>Effective Date</u>	<u>Notional Amount (In millions)</u>	<u>Fixed Rate Paid</u>	<u>Variable Rate Received as of September 30, 2009</u>	<u>Next Reset Date</u>	<u>Maturity Date</u>

Until February 15, 2008, our interest rate swap agreements were not designated as hedging instruments; therefore, gains or losses resulting from changes in the fair value of the swaps were recognized in earnings in the period of the change. On February 15, 2008, eight of our interest rate swap agreements for notional amounts totaling \$3.5 billion were designated as cash flow hedging instruments and on April 1, 2008, the remaining swap agreements were designated as cash flow hedging instruments. At September 30, 2009, we removed the cash flow hedge designation for the \$1.0 billion swap, thus reducing the total notional amount on interest rate swaps designated as cash flow hedging instruments to \$5.5 billion. Upon designation as cash flow hedging instruments, only any measured ineffectiveness is recognized in earnings in the period of change. There was no measured ineffectiveness recognized in earnings for the quarter and nine months ended September 30, 2009, compared with a credit of \$13.9 million and a net charge of \$54.6 million, respectively, for the third quarter 2008 and the period from January 28, 2008 through September 30, 2008, due to changes in the fair values of swap agreements. Due to current interest rate levels, interest rates swaps increased interest expense \$50.0 million and \$147.6 million for the quarter and nine months ended September 30, 2009, respectively, compared to \$26.6 million and \$50.4 million, respectively, for the quarter ended September 30, 2008, and the period from January 28, 2008 through September 30, 2008. The variable rate did not materially change as a result of the October 26, 2009, reset.

Additionally, on January 28, 2008, we entered into an interest rate cap agreement to partially hedge the risk of future increases in the variable rate of the CMBS financing. The interest rate cap agreement, which was effective January 28, 2008, and terminates February 13, 2013, is for a notional amount of \$6.5 billion at a LIBOR cap rate of 4.5%. The interest rate cap was designated as a cash flow hedging instrument on May 1, 2008. The change in the fair value of the interest rate cap did not impact interest expense for the third quarter and nine months ended September 30, 2009, whereas, for the quarter ended and period from January 28, 2008 through September 30, 2008, a credit of \$0.1 million and a net charge of \$12.2 million, respectively, representing the change in the fair value, are included in Interest expense in our Consolidated Condensed Statement of Operations.

As discussed previously, we borrowed \$1 billion on October 15, 2009 under the Incremental Facility Amendment and used a majority of the net proceeds of these borrowings to pay down outstanding indebtedness under our Credit Facilities. As a result, we no longer have a sufficient amount of outstanding debt under the same terms as our interest rate swap agreements discussed above to support hedge accounting treatment for the full \$6.5 billion in interest rate swaps. Therefore, as of September 30, 2009, we have undesignated the last hedge that we entered into, being the \$1 billion hedge entered into on April 25, 2008. By undesignating this hedge, we will no longer account for this interest rate swap as a hedging instrument. Through September 30, 2009, we had deferred losses on this hedge contract of \$22.3 million into equity, which will now be amortized into income as interest expense over the period from October 1, 2009 through April 25, 2012, the expiration date of the interest rate swap. Likewise, any future changes in fair value of the interest rate swap will be recognized in earnings during the period in which the changes in value occur.

Guarantees of Third-Party Debt and Other Obligations and Commitments

The tables below summarize, as of September 30, 2009, total material additions to or changes in our contractual obligations and other commitments through their respective maturity or ending dates, which were disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations presented in our 2008 Annual Report on Form 10-K.

<u>Other Commitments (In millions)</u>	<u>Increase/ (Decrease)</u>	<u>Total</u>
Letters of credit	\$ (13.5)	\$ 161.9
Minimum payments to tribes	(10.4)	31.1

The agreements pursuant to which we manage casinos on Indian lands contain provisions required by law that provide that a minimum monthly payment be made to the tribe. That obligation has priority over scheduled repayments of borrowings for development costs and over the management fee earned and paid to the manager. In the event that insufficient cash flow is generated by the operations to fund this payment, we must pay the shortfall to the tribe. Subject to certain limitations as to time, such advances, if any, would be repaid to us in future periods in which operations generate cash flow in excess of the required minimum payment. These commitments will terminate upon the occurrence of certain defined events, including termination of the management contract. Our aggregate monthly commitment for the minimum guaranteed payments, pursuant to these contracts for the three managed Indian-owned facilities now open, which extend for periods of up to 50 months from September 30, 2009, is \$1.2 million. Each of these casinos currently generates sufficient cash flows to cover all of its obligations, including its debt service.

Competitive Pressures

The gaming industry is highly competitive and our competitors vary considerably in size, quality of facilities, number of operations, brand identities, marketing and growth strategies, financial strength and capabilities, level of amenities, talent management and geographic diversity. We also compete with other non-gaming resorts and vacation areas, and with various other entertainment businesses. Our competitors in each market may have substantially greater financial, marketing and other resources than we do and there can be no assurance that they will not in the future engage in aggressive pricing action to compete with us. Although we believe we are currently able to compete effectively in each of the various markets in which we participate, we cannot make assurances that we will be able to continue to do so or that we will be capable of maintaining or further increasing our current market share. Our failure to compete successfully in our various markets could adversely affect our business, financial condition, results of operations and cash flows.

In recent years, with fewer new markets opening for development, many casino operators have been reinvesting in existing markets to attract new customers or to gain market share, thereby increasing competition in those markets. As companies have completed expansion projects, supply has typically grown at a faster pace than demand in some markets and competition has increased significantly. The expansion of existing casino entertainment properties, the increase in the number of properties and the aggressive marketing strategies of many of our competitors have increased competition in many markets in which we operate, and this intense competition is expected to continue. These competitive pressures have and are expected to continue to adversely affect our financial performance in certain markets.

Several states and Indian tribes are also considering enabling the development and operation of casinos or casino-like operations in their jurisdictions. Due to harsh economic times affect states' budgets, many are looking to add gambling within their states. The State of Ohio recently approved the use of Video Lottery Terminals ("VLT") and in June 2009, Illinois state officials approved slot machines in bars and taverns.

Although, historically, the short-term effect of such competitive developments on our Company generally has been negative, we are not able to determine the long-term impact, whether favorable or unfavorable, that development and expansion trends and events will have on current or future markets. We also cannot determine the long-term impact of the current financial crisis on the economy, and casinos specifically. In the short-term, the current financial crisis has stalled or delayed some of our capital projects, as well as those of many of our competitors. In addition, our substantial indebtedness could limit our flexibility in planning for, or reacting to, changes in our operations or business and restrict us from developing new gaming facilities, introducing new technologies or exploiting business opportunities, all of which could place us at a competitive disadvantage. We believe that the geographic diversity of our operations; our focus on multi-market customer relationships; our service training, our rewards and customer loyalty programs; and our continuing efforts to establish our brands as premier brands upon which we have built strong customer loyalty have well-positioned us to face the challenges present within our industry. We utilize the unique capabilities of WINet, a sophisticated nationwide customer database, and Total Rewards, a nationwide loyalty program that allows our customers to earn cash, comps and other benefits for playing at our casinos. We believe these sophisticated marketing tools provide us with competitive advantages, particularly with players who visit more than one market.

SIGNIFICANT ACCOUNTING POLICIES AND USE OF ESTIMATES

We prepare our Consolidated Condensed Financial Statements in conformity with accounting principles generally accepted in the United States. Certain of our accounting policies, including the estimated lives assigned to our assets, the determination of bad debt, asset impairment, fair value of guarantees and self-insurance reserves, the purchase price allocations made in connection with our acquisitions/merger and the calculation of our income tax liabilities, require that we apply significant judgment in defining the

[Table of Contents](#)

appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. Our judgments are based on our historical experience, terms of existing contracts, observance of trends in the industry, information provided by our customers and information available from other outside sources, as appropriate. There can be no assurance that actual results will not differ from our estimates. For a discussion of our significant accounting policies and estimates, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes to Consolidated Financial Statements presented in our 2008 Annual Report on Form 10-K. Significant changes to our accounting policies and any new accounting pronouncements are further discussed in Footnote 2 to the consolidated financial statements included in Item I of this Form 10-Q.

PRIVATE SECURITIES LITIGATION REFORM ACT

This quarterly report on Form 10-Q contains “forward-looking statements” intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. You can identify these statements by the fact that they do not relate strictly to historical or current facts. We have based these forward-looking statements on our current expectations about future events. Further, statements that include words such as “may,” “will,” “project,” “might,” “expect,” “believe,” “anticipate,” “intend,” “could,” “would,” “estimate,” “continue” or “pursue,” or the negative or other words or expressions of similar meaning may identify forward-looking statements. These forward-looking statements are found at various places throughout this report. These forward-looking statements, including without limitation, those relating to future actions, new projects, strategies, future performance, the outcome of contingencies such as legal proceedings and future financial results, wherever they occur in this report, are necessarily estimates reflecting the best judgment of our management and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements should, therefore, be considered in light of various important factors set forth from time to time in our filings with the Securities and Exchange Commission.

Important factors that could cause actual results to differ materially from estimates or projections contained in the forward-looking statements include without limitation:

- the impact of the substantial indebtedness incurred to finance the consummation of the Merger;
- the effect of local and national economic, credit and capital market conditions on the economy in general, and on the gaming and hotel industry in particular;
- construction factors, including delays, increased costs of labor and materials, availability of labor and materials, zoning issues, environmental restrictions, soil and water conditions, weather and other hazards, site access matters and building permit issues;
- the effects of environmental and structural building conditions relating to our properties;
- our ability to timely and cost effectively integrate companies that we acquire into our operations;
- access to available and reasonable financing on a timely basis;
- changes in laws, including increased tax rates, regulations or accounting standards, third-party relations and approvals, and decisions of courts, regulators and governmental bodies;
- litigation outcomes and judicial actions, including gaming legislative action, referenda and taxation;
- the ability of our customer-tracking, customer loyalty and yield-management programs to continue to increase customer loyalty and same-store or hotel sales;
- our ability to recoup costs of capital investments through higher revenues;
- acts of war or terrorist incidents or natural disasters;
- access to insurance on reasonable terms for our assets;
- abnormal gaming holds;
- the potential difficulties in employee retention and recruitment as a result of our substantial indebtedness and the recent downturn in the gaming and hotel industries; and
- the effects of competition, including locations of competitors and operating and market competition.

You are cautioned to not place undue reliance on these forward-looking statements, which speak only as of the date of this quarterly report for Form 10-Q. We undertake no obligation to publicly update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this quarterly report on Form 10-Q or to reflect the occurrence of unanticipated events, except as required by law.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our debt. We attempt to limit our exposure to interest rate risk by managing the mix of our debt between fixed-rate and variable-rate obligations. Of our approximate \$19.3 billion total debt at September 30, 2009, \$13.2 billion is subject to variable interest rates. To manage our interest rate risk, we have entered into interest rate swap agreements with respect to LIBOR borrowings for a notional amount of \$6.5 billion

[Table of Contents](#)

of this variable rate debt, all of which fix the floating rates of interest to fixed rates. In addition to the swap agreements, we entered into an interest rate cap agreement for a notional amount of \$6.5 billion at a LIBOR cap rate of 4.5%. Assuming a constant outstanding balance for our variable rate debt for the next twelve months, a hypothetical 1% increase in interest rates would increase interest expense for the next twelve months by approximately \$67.0 million. At September 30, 2009, the 3-Month USD LIBOR rate was 0.298%. A hypothetical reduction of this rate to 0% would decrease interest expense for the next twelve months by approximately \$22.5 million.

We use interest rate swaps to manage the mix of our debt between fixed and variable rate instruments. We do not purchase or hold any derivative financial instruments for trading purposes.

Foreign currency translation gains and losses were not material to our results of operations for third quarter 2009. Our only material ownership interests in businesses in foreign countries are London Clubs, Macau Orient Golf and an approximate 95% ownership of a casino in Uruguay. Therefore, we have not been subject to material foreign currency exchange rate risk from the effects that exchange rate movements of foreign currencies would have on our future operating results or cash flows.

From time to time, we hold investments in various available-for-sale equity securities; however, our exposure to price risk arising from the ownership of these investments is not material to our consolidated financial position, results of operations or cash flows.

Item 4. Controls and Procedures

Our principal executive officer and principal financial officer have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of September 30, 2009. Based on such evaluation, they have concluded that as of such date, our disclosure controls and procedures are effective and designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and that such information is accumulated and communicated to management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 4T. Controls and Procedures

Not applicable.

Item 1. Legal Proceedings.

Litigation Related to Employee Benefit Obligations

In December 1998, Hilton Hotels Corporation ("Hilton") spun-off its gaming operations as Park Place Entertainment Corporation ("Park Place"). In connection with the spin-off, Hilton and Park Place entered into that certain Employee Benefits and Other Employment Allocation Agreement dated December 31, 1998 (the "Allocation Agreement") whereby Park Place shall assume or retain, as applicable, liabilities and excess assets, if any, related to the Hilton Hotels Retirement Plan (the "Hilton Plan") based on the accrued benefits of Hilton employees and Park Place employees. Park Place changed its name to Caesars Entertainment, Inc. ("Caesars") and the Company acquired Caesars in June 2005. In 1999 and 2005, the United States District Court for the District of Columbia certified two nationwide class action lawsuits against Hilton alleging that the Hilton Plan's benefit formula was backloaded in violation of ERISA, and that Hilton failed to properly calculate Hilton Plan participants' service for vesting purposes. In May 2009, the Court issued a decision granting summary judgment to the plaintiffs. In November 2009, the plaintiffs and Hilton are scheduled to attend a Court-mandated mediation session in an effort to determine an appropriate remedy.

The Company received a letter from Hilton in October 2009 alleging potential liability under the above described claims and under the terms of the Allocation Agreement, and the Company may be responsible for a portion of the liability resulting from the claims noted above. We are monitoring the status of the lawsuit, remedy determination, and our potential liability, if any.

Certain of our legal proceedings are reported in our Annual Report on Form 10-K for the year ended December 31, 2008, with material developments described below.

Litigation Related to Our Operations

In April 2000, the Saint Regis Mohawk Tribe (the “Tribe”) granted Caesars the exclusive rights to develop a casino project in the State of New York. On April 26, 2000, certain individual members of the Tribe purported to commence a class action proceeding in a “Tribal Court” in Hogansburg, New York, against Caesars seeking to nullify Caesars’ agreement with the Tribe. On March 20, 2001, the “Tribal Court” purported to render a default judgment against Caesars in the amount of \$1,787 million. Prior to our acquisition of Caesars in June 2005, it was believed that this matter was settled pending execution of final documents and mutual releases. Although fully executed settlement documents were never provided, on March 31, 2003, the United States District Court for the Northern District of New York dismissed litigation concerning the validity of the judgment, without prejudice, while retaining jurisdiction to reopen that litigation, if, within three months thereof, the settlement had not been completed. On June 22, 2007, a lawsuit was filed in the United States District Court for the Northern District of New York against us by certain trustees of the Catskill Litigation Trust alleging the Catskill Litigation Trust had been assigned the “Tribal Court” judgment and seeks to enforce it, with interest. According to a “Tribal Court” order, accrued interest through July 9, 2007, was approximately \$1,014 million. On September 28, 2009, the Court entered summary judgment against the Tribe and dismissed the action, ruling that although alternative grounds were presented in the motion, the subject matter of the action was asserted in a prior action and settled by and oral agreement to end that matter with prejudice. On October 27, 2009, the Tribe filed a Notice of Appeal to the United States Court of Appeals for the Second Circuit. We intend to oppose the appeal.

Litigation Related to Development

On March 6, 2008, Caesars Bahamas Investment Corporation (“CBIC”), an indirect subsidiary of Harrah’s Operating Company, Inc. (“HOC”) terminated its previously announced agreement to enter into a joint venture in the Bahamas with Baha Mar Joint Venture Holdings Ltd. and Baha Mar JV Holding Ltd. (collectively, “Baha Mar”). To enforce its rights, on March 13, 2008, CBIC filed a complaint against Baha Mar, and the Baha Mar Development Company Ltd., in the Supreme Court of the State of New York, seeking a declaratory judgment with respect to CBIC’s rights under the Subscription and Contribution Agreement (the “Subscription Agreement”), between CBIC and Baha Mar, dated January 12, 2007. Pursuant to the Subscription Agreement, CBIC agreed, subject to certain conditions, to subscribe for shares in Baha Mar Joint Venture Holdings Ltd., which was formed to develop and construct a casino, golf course and resort project in the Bahamas. The complaint alleges that (i) the Subscription Agreement grants CBIC the right to terminate the agreement at any time prior to the closing of the transactions contemplated therein, if the closing does not occur on time; (ii) the closing did not occur on time; and, (iii) CBIC exercised its right to terminate the Subscription Agreement, and to abandon the transactions contemplated therein. The complaint seeks a declaratory judgment that the Subscription Agreement has been terminated in accordance with its terms and the transactions contemplated therein have been abandoned.

Baha Mar and Baha Mar Development Company Ltd. (“Baha Mar Development”) filed an Amended Answer and Counterclaims against CBIC and a Third Party Complaint dated June 18, 2008 against HOC in the Supreme Court of the State of New York. Baha Mar and the Baha Mar Development allege that CBIC wrongfully terminated the Subscription Agreement and that CBIC wrongfully failed to make capital contributions under the Joint Venture Investors Agreement, by and between CBIC and Baha Mar, dated January 12, 2007. In addition, Baha Mar and Baha Mar Development allege that HOC wrongfully failed to perform its purported obligations under the Harrah’s Baha Mar Joint Venture Guaranty, dated January 12, 2007. Baha Mar and Baha Mar Development assert claims for breach of contract, breach of fiduciary duty, promissory estoppel, equitable estoppel and negligent misrepresentation. Baha Mar and Baha Mar Development seek (i) declaratory relief; (ii) specific performance; (iii) the recovery of alleged monetary damages; (iv) the recovery of attorneys fees, costs, and expenses and (v) the dismissal with prejudice of CBIC’s Complaint. CBIC and HOC have each answered, denying all allegations of wrongdoing. In the second quarter 2009, both sides filed motions for summary judgment.

At the conclusion of oral argument on October 6, 2009, on cross motions for summary judgment, the Court stated that it was going to grant summary judgment to CBIC and HOC and that Baha Mar Development’s claims are dismissed. The Court stated that it will issue a written opinion, but the opinion has not been issued to date.

Other

In addition, the Company is party to ordinary and routine litigation incidental to our business. We do not expect the outcome of any pending litigation to have a material adverse effect on our consolidated financial position or results of operations.

I, Jonathan S. Halkyard, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Harrah's Entertainment, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Supplemental Discussion of Pro forma Harrah's Operating Company Results

On January 28, 2008, Harrah's Entertainment was acquired by affiliates of Apollo Global Management, LLC ("Apollo") and TPG Capital, LP ("TPG") in an all cash transaction, hereinafter referred to as the "Merger." A substantial portion of the financing of the Merger is comprised of bank and bond financing obtained by Harrah's Operating Company, Inc. ("HOC"), a wholly-owned subsidiary of Harrah's Entertainment. This financing is neither secured nor guaranteed by Harrah's Entertainment's other wholly-owned subsidiaries, including certain subsidiaries that own properties that are secured under \$6.5 billion of commercial mortgage-backed securities ("CMBS") financing. Therefore, we believe it is meaningful to provide pro forma information pertaining solely to the consolidated financial position and results of operations of HOC and its subsidiaries.

In connection with the CMBS financing for the Merger, HOC spun off to Harrah's Entertainment the following casino properties and related operating assets: Harrah's Las Vegas, Rio, Flamingo Las Vegas, Harrah's Atlantic City, Showboat Atlantic City, Harrah's Lake Tahoe, Harvey's Lake Tahoe and Bill's Lake Tahoe. We refer to this spin-off as the "CMBS Spin-Off." Upon receipt of regulatory approvals that were requested prior to the closing of the Merger, in May 2008, Paris Las Vegas and Harrah's Laughlin and their related operating assets were spun out of HOC to Harrah's Entertainment and Harrah's Lake Tahoe, Harvey's Lake Tahoe, Bill's Lake Tahoe and Showboat Atlantic City and their related operating assets were transferred to HOC from Harrah's Entertainment. We refer to this spin-off and transfer as the "Post-Closing CMBS Transaction."

We refer to the CMBS Spin-Off and the Post-Closing CMBS Transaction as the "CMBS Transactions."

Additionally, in connection with the CMBS Transactions and the Merger, London Clubs and its subsidiaries, with the exception of the subsidiaries related to London Clubs South Africa operations, became subsidiaries of HOC. The South African subsidiaries became subsidiaries of HOC in second quarter 2008. We refer to these transfers collectively as "the London Clubs Transfer."

OPERATING RESULTS AND DEVELOPMENT PLANS FOR HOC

The results of operations and other financial information included in this section are adjusted to reflect the pro forma effect of the CMBS Transactions as if they had occurred on January 1, 2008. Pro forma adjustments relate primarily to the removal of the historical results of the CMBS properties after giving effect to the Post-Closing CMBS Transaction and other direct subsidiaries of Harrah's Entertainment and allocations of certain unallocated corporate costs that are being allocated to each group subsequent to the Merger. We believe that this is the most meaningful way to comment on HOC's results of operations.

Overall HOC Results

The following tables represent HOC's unaudited condensed combined balance sheet as of September 30, 2009, and its unaudited condensed combined statements of operations for the quarter and nine months ended September 30, 2009, and its unaudited condensed pro forma combined statements of operations for the quarter ended September 30, 2008, the Successor period from January 28, 2008 through September 30, 2008, and the Predecessor period from January 1, 2008 through January 27, 2008. Also included are the unaudited condensed combined statements of cash flow for the nine months ended September 30, 2009, the Successor period from January 28, 2008 through September 30, 2008, and the Predecessor period from January 1, 2008 through January 27, 2008. All pro forma financial information takes into consideration the CMBS Transactions and the London Clubs Transfer.

 - (2) Represents the removal of (i) the financial information of all subsidiaries of Harrah's Entertainment that are not a component of HOC, namely, captive insurance companies and London Clubs and its subsidiaries; and (ii) accounts at Harrah's Entertainment parent company.
 - (3) Represents the historical financial information of HOC.
 - (4) Reflects the removal of the operating results of the CMBS properties, pursuant to the CMBS Transactions in which certain properties and operations of HOC were spun-off into a separate borrowing structure and held side-by-side with HOC under Harrah's Entertainment. The operating expenses of HOC include unallocated costs attributable to services that have been performed by HOC on behalf of the CMBS properties. These costs are primarily related to corporate functions such as accounting, tax, treasury, payroll and benefits administration, risk management, legal, and information management and technology. The CMBS spin-off reflects the push-down of corporate expense of \$34.7 million that was unallocated at January 27, 2008. Following the Merger, many of these services continue to be provided by HOC pursuant to a shared services agreement with the CMBS properties.
 - (5) Reflects the inclusion of the London Clubs operating results pursuant to the London Clubs Transfer, in which London Clubs and its subsidiaries became subsidiaries of HOC.
 - (6) Due to the January 1, 2009, adoption of a recent accounting pronouncement, certain 2008 amounts have been recast to conform to the 2009 presentation.

In accordance with Generally Accepted Accounting Principles, we have separated our historical financial results for the Successor period and the Predecessor period; however, we have also combined the Successor and Predecessor periods results for the nine months ended September 30, 2008, in the presentations below because we believe that it enables a meaningful presentation and comparison of results. We have recast certain amounts for prior periods to conform to our 2009 presentation. We have recast certain amounts for prior periods to conform to our 2009 presentation. Because the quarter and nine months ended September 30, 2009 income from operations includes impairment charges, the following tables also present income from operations before impairment charges to provide more meaningful comparisons of results. This presentation is not in accordance with GAAP.

The executive officers of HOC review operating results, assess performance and make decisions related to the allocation of resources on a property-by-property basis. We, therefore, believe that each property is an operating segment and that it is appropriate to aggregate and present our operations as one reportable segment. In order to provide more detail than would be possible on a consolidated basis, our properties have been grouped as follows to facilitate discussion of our operating results:

<u>Las Vegas</u>	<u>Atlantic City</u>	<u>Louisiana/Mississippi</u>	<u>Iowa/Missouri</u>

Revenues for the quarter and nine months ended September 30, 2009, were impacted by the current economic environment, which has reduced customer spending, particularly in the Las Vegas and Atlantic City markets. The earnings impact of the declines in revenue in 2009 compared to the same periods in 2008 was partially offset by company-wide cost savings initiatives that began in the third quarter of 2008. Income from continuing operations, net of tax, for the nine months ended September 30, 2009, reflects pre-tax charges of \$1.2 billion for impairment of goodwill and certain intangible assets, which were more than offset by second quarter 2009 gains on early extinguishments of debt totaling \$3.9 billion, pre-tax. The nine months ended September 30, 2008, included expenses incurred in connection with the Merger, primarily related to the accelerated vesting of employee stock options, stock appreciation rights ("SARs") and restricted stock, higher interest expense and losses on the early extinguishments of debt, partially offset by proceeds from the settlement of insurance claims related to hurricane damage in 2005.

Included in income from operations for each grouping are project opening costs and write-downs, reserves and recoveries. Project opening costs include costs incurred in connection with expansion and renovation projects at various properties. Write-downs, reserves and recoveries include various pretax charges to record asset impairments, contingent liability reserves, project write-offs, demolition costs, recoveries of previously recorded charges and other non-routine transactions.

For the quarter and nine months ended September 30, 2009, revenues and income from operations were lower than in the quarter and nine months ended September 30, 2008, driven by lower spend per visitor and declines in the group-travel business. While hotel occupancy remained strong, average room rates declined. Loss from operations for the quarter and nine months ended September 30, 2009, includes a total charge of \$671.8 million for the impairment of goodwill for certain Las Vegas properties.

An expansion and renovation of Caesars Palace Las Vegas was completed on the new Octavius Tower, a new hotel tower with 110,000 square feet of additional meeting and convention space, three 10,000-square-foot, luxury villa suites and an expanded pool and garden area. We have deferred completion of approximately 660 rooms, including 75 luxury suites, within the hotel tower expansion as a result of current economic conditions impacting the Las Vegas tourism sector. The estimated total capital expenditures for the project, excluding the costs to complete the deferred rooms, are expected to be \$685.4 million, \$628.9 million of which had been spent as of September 30, 2009. The convention center is now open, and the remainder of the expansion project, other than the deferred rooms, was completed during the third quarter of 2009.

Revenues and income from operations for the quarter and nine months ended September 30, 2009, were lower than in the quarter and nine months ended September 30, 2008, due to reduced visitation and spend per trip. The Atlantic City market continues to be affected by competition from three slot facilities in eastern Pennsylvania and one in Yonkers, New York and the current weak economic environment. Included in loss from operations in the third quarter 2009 is a \$178.6 million charge recorded in the quarter for impairment of goodwill of certain of the Atlantic City properties.

Revenues for the quarter and nine months ended September 30, 2009, from our properties in Louisiana and Mississippi were lower compared to the same periods in 2008 driven by lower visitation due to the current economic environment. Included in income from operations in the third quarter 2009 is a \$6.0 million charge recorded in the quarter for impairment of goodwill of certain of the properties within the Louisiana/Mississippi region.

Income from operations for the nine months ended September 30, 2008, included insurance proceeds of \$185.4 million from the final settlement of claims related to the 2005 hurricanes. The proceeds are included in Write-downs, reserves and recoveries in our 2008 Consolidated Condensed Statement of Operations. Excluding the insurance proceeds in 2008 from the year-over-year comparison, operating margin for the Louisiana/Mississippi group of properties improved 2.6 percentage points as a result of cost savings initiatives.

Construction began in third quarter 2007 on Margaritaville Casino & Resort in Biloxi. We have halted construction on this project, and will continue to review and refine the project in light of the current economic environment, market conditions on the Gulf Coast and the current financing environment. We license the Margaritaville name from an entity affiliated with the singer/songwriter Jimmy Buffett. As of September 30, 2009, \$178.8 million had been spent on this project.

Revenues were lower for the quarter ended September 30, 2009 due to reduced visitation. For the nine months ended September 30, 2009, revenue results were slightly higher driven by the renovation and expansion at Horseshoe Hammond that opened in August 2008. Cost savings initiatives at properties in the region also contributed to the increase in income from operations for both the quarter and year-to-date periods in 2009. Loss from operations compared unfavorably in the third quarter 2009 versus the prior year period as a result of a \$180.7 million charge recorded in the 2009 quarter for impairments of goodwill and non-amortizing intangibles of certain of the Illinois / Indiana region properties.

For the quarter and nine months ended September 30, 2009, revenues from our Nevada properties outside of Las Vegas were lower than in the respective 2008 period due to lower customer spend per trip. In the third quarter 2009, the impact of lower revenues on income from operations was partially offset by cost savings initiatives implemented at the properties. Despite decreased revenues and income from operations in the first nine months of 2009 when compared to the same period of 2008, operating margin remained stable due to cost savings initiatives.

Managed, international and other results include income from our managed properties, results of our international properties, certain marketing and administrative expenses, including development costs, income from our non-consolidated affiliates, and our businesses related to the World Series of Poker® (“WSOP”) brand. The decline in revenues for the quarter and nine months ended September 30, 2009, reflected the impact of the current economic environment on our managed and international properties. For the

quarter and nine months ended September 30, 2009, (Loss)/income from operations in our international businesses improved due to cost savings initiatives at our London Clubs properties.

Other losses from operations for the quarter and nine months ended September 30, 2009, were unfavorably impacted by charges for the impairment of certain tangible and intangible assets. For the quarter and nine months ended September 30, 2009, impairment charges of goodwill and other non-amortizing intangible assets totaled \$87.5 million and \$129.5 million, respectively. An impairment charge was recorded on tangible assets which totaled approximately \$35.8 million, which was partially offset by reversal litigation accruals of approximately \$30 million.

Corporate expense decreased during the nine months ended September 30, 2009 from the same period in the prior year due to the continued realization of cost savings initiatives that began in the third quarter of 2008.

Merger and integration costs in 2008 include costs in connection with the Merger, including the expense related to the accelerated vesting of employee stock options, SARs and restricted stock.

Amortization of intangible assets was slightly higher in the quarter and nine months ended September 30, 2009 when compared to the same periods in 2008 due to finalization of the purchase price allocation in connection with the Merger. Until the finalization of the purchase price allocation in the fourth quarter of 2008, amortization was estimated based on a preliminary purchase price allocation.

We completed debt exchanges in December 2008 and April 2009, and have purchased debt on the open market throughout 2009, the combination of which has reduced our overall outstanding indebtedness as of September 30, 2009 when compared to September 30, 2008. This reduced indebtedness has in turn reduced our interest expense for the quarters ended September 30, 2009 and 2008, the nine months ended September 30, 2009, when compared to the period from January 28, 2008 through September 30, 2009 and the period from January 1, 2008 through January 27, 2008. Interest expense for the nine months ended September 30, 2008

included losses resulting from changes in the fair value of our interest rate swap agreements prior to their designation as hedging instruments.

A change in interest rates on variable-rate debt will impact our financial results. For example, assuming a constant outstanding balance for our variable-rate debt, excluding \$6.5 billion of variable-rate debt for which we have entered into interest rate swap agreements, for the next twelve months, a hypothetical 1% increase in corresponding interest rates would increase interest expense for the next twelve months by approximately \$0.8 million, or \$0.2 million per quarter. At September 30, 2009, the 3-Month USD LIBOR rate was 0.298%. A hypothetical reduction of this rate to 0% would reduce interest expense for the next twelve months by approximately \$3.1 million, or \$0.8 million per quarter. At September 30, 2009, our variable-rate debt, excluding \$6.5 billion of variable-rate debt for which we have entered into interest rate swap agreements, represents approximately 1.2% of our total debt, while our fixed-rate debt is approximately 98.8% of our total debt.

Losses on early extinguishments of debt for the quarter ended September 30, 2009 represent write-off of unamortized discounts related to our purchases of certain of our debt in the open market. Gains on early extinguishments of debt for the first nine months of 2009 represent discounts related to our exchange of certain outstanding debt for new debt in the first half of 2009 and purchases of debt in the open market during the first nine months of 2009. Losses on early extinguishments of debt in 2008 represented premiums paid and the write-offs of unamortized deferred financing costs and market value premiums related to debt retired in connection with the Merger.

Other income includes higher interest income on the cash surrender value of life insurance policies in the quarter and nine months ended September 30, 2009. Other income in the nine months ended September 30, 2008, included receipt of insurance proceeds related to executive life insurance policies related to the Company's deferred compensation plan.

The effective tax provision rate for the quarter and nine months ended September 30, 2009, is higher than the federal statutory rate due primarily to permanent book/tax differences, state income taxes and the non-deductibility of the goodwill impairment charge. The effective tax benefit rate for the quarter and nine months ended September 30, 2008, was lower than the federal statutory rate due primarily to non-deductible merger costs, permanent book/tax differences, international income taxes, and state income taxes.

Income attributable to non-controlling interests reflects minority owners' shares of income from our majority-owned subsidiaries.

Discontinued operations in the nine months ended September 30, 2008, reflected insurance proceeds received of \$87.3 million, after taxes, representing a portion of the final settlement of claims resulting from hurricane damages to our Gulf Coast properties in Mississippi in 2005, one of which was subsequently sold by the Company.

COST SAVINGS INITIATIVES

In light of the economic downturn and adverse conditions in the travel and leisure industry generally, we have undertaken a comprehensive cost reduction effort to right-size expenses with business levels. Beginning in August 2008, the program includes organizational restructurings at our corporate and property operations, reduction of travel and entertainment expenses, rationalization of our corporate wide marketing expenses, and headcount reductions at property operations and corporate offices. To date, Harrah's Entertainment has identified \$555.0 million in estimated cost savings from these initiatives, of which approximately \$368.3 million has been realized in the trailing twelve months (TTM) ending September 30, 2009. In accordance with our shared services agreement with Harrah's Entertainment, \$399.6 million of these estimated cost savings and \$265.2 million of the TTM realized cost savings have been allocated to Harrah's Operating Company, Inc. Harrah's Entertainment expects to implement most of the program directives and achieve approximately \$517.0 million in annual savings (of which approximately \$372.0 million is Harrah's Operating Company, Inc. proportionate share), on a run-rate basis, by the end of 2009.

CAPITAL SPENDING AND DEVELOPMENT

In addition to the development and expansion projects discussed in the OPERATING RESULTS AND DEVELOPMENT PLANS section, we also perform on-going refurbishment and maintenance at our casino entertainment facilities to maintain our quality standards, and we continue to pursue development and acquisition opportunities for additional casino entertainment facilities that meet our strategic and return on investment criteria. Prior to the receipt of necessary regulatory approvals, the costs of pursuing development projects are expensed as incurred. Construction-related costs incurred after the receipt of necessary approvals are capitalized and depreciated over the estimated useful life of the resulting asset. Project opening costs are expensed as incurred.

Our planned development projects, if they go forward, will require, individually and in the aggregate, significant capital commitments and, if completed, may result in significant additional revenues. The commitment of capital, the timing of completion and the commencement of operations of casino entertainment development projects are contingent upon, among other things, negotiation of final agreements and receipt of approvals from the appropriate political and regulatory bodies. We must also comply with covenants and restrictions set forth in our debt agreements. Cash needed to finance projects currently under development as well as additional projects being pursued is expected to be made available from operating cash flows, established debt programs (see DEBT AND LIQUIDITY), joint venture partners, specific project financing, guarantees of third-party debt and additional debt offerings. Our capital spending for the first nine months of 2009 totaled approximately \$389.6 million. Estimated total capital expenditures for 2009 are expected to be between \$425 million and \$490 million.

DEBT AND LIQUIDITY

Our Condensed Combined Statement of Cash Flows and Condensed Pro Forma Combined Statement of Cash Flows reflect the impact on our consolidated operations of the success of our marketing programs and on-going cost containment focus and, in 2009, the impact of current economic conditions. For the first nine months of 2009, we reported cash flows provided by operating activities of \$48.9 million compared to \$502.4 million for the period from January 28, 2008 through September 30, 2008, and cash flows used in operating activities of \$49.8 million for the period from January 1, 2008 through January 27, 2008.

Our cash and cash equivalents totaled approximately \$447.4 million at December 31, 2008.

We believe that our cash and cash equivalents balance, our cash flows from operations and the financing sources discussed herein, will be sufficient to meet our expected operating requirements during the next twelve months and to fund capital expenditures. In addition, we may consider issuing additional debt in the future to refinance existing debt or to finance specific capital projects.

At September 30, 2009, \$162.0 million, face amount, of our 7.875% Senior Subordinated Notes due March 15, 2010, \$228.6 million, face amount, of our 5.5% Senior Notes due July 1, 2010, and \$25.0 million, face value, of our 6.0% Senior Debt due July 15, 2010, are classified as long-term in our Consolidated Condensed Balance Sheet because the Company currently has both the intent and the ability to refinance these notes under our revolving credit facility.

The majority of our debt is due after 2010. Payments of short-term debt obligations and other commitments are expected to be made from operating cash flows and from borrowings under our established debt programs. Long-term obligations are expected to be paid through operating cash flows, refinancing of debt, joint venture partners or, if necessary, additional debt offerings.

Exchange Offers and Open Market Repurchases

From time to time, we may retire portions of our outstanding debt in open market purchases, privately negotiated transactions or otherwise. These repurchases will be funded through available cash from operations and from our established debt programs. Such repurchases are dependent on prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors.

As previously disclosed, on April 15, 2009, HOC completed private exchange offers to exchange approximately \$3.6 billion aggregate principal amount of new 10.0% Second-Priority Senior Secured Notes due 2018 for approximately \$5.4 billion principal amount of its outstanding debt due between 2010 and 2018. The new notes are guaranteed by Harrah's Entertainment and are secured

on a second-priority lien basis by substantially all of HOC's and its subsidiaries' assets that secure the senior secured credit facilities. In addition to the exchange offers, a subsidiary of Harrah's Entertainment paid approximately \$97 million to purchase for cash certain notes of HOC with an aggregate principal amount of approximately \$523 million maturing between 2015 and 2017. The notes purchased pursuant to this tender offer will remain outstanding for HOC but will reduce Harrah's Entertainment's outstanding debt on a consolidated basis. Additionally, HOC paid approximately \$4.8 million in cash to purchase notes of approximately \$24 million aggregate principal amount from retail holders that were not eligible to participate in the exchange offers.

As a result of the exchange and tender offers, we recorded a pretax gain in the second quarter of 2009 of approximately \$3.8 billion arising from this early extinguishment of debt. As a result of the receipt of the requisite consent of lenders having loans made under the Senior Unsecured Interim Loan Agreement ("Interim Loan Agreement") representing more than 50% of the sum of all loans outstanding under the Interim Loan Agreement, waivers or amendments of certain provisions of the Interim Loan Agreement to permit HOC, from time to time, to buy back loans at prices below par from specific lenders in the form of voluntary prepayments of the loans by HOC on a non-pro rata basis are now operative. Included in the exchanged debt discussed above are approximately \$297 million of 10.0% Second-Priority Senior Secured Notes that were exchanged for approximately \$442 million principal amount of loans surrendered in the exchange offer for loans outstanding under the Interim Loan Agreement. As a result of these transactions, all loans outstanding under the Interim Loan Agreement have been retired.

Pre-tax gain on debt exchanges	—	3,773.4
Aggregate (losses)/gains on early extinguishments of debt	<u>\$ (1.5)</u>	<u>\$ 3,931.4</u>

Under the American Recovery and Reinvestment Act of 2009 ("the Act"), the Company will receive temporary tax relief under the Delayed Recognition of Cancellation of Debt Income ("CODI") rules. The Act contains a provision that allows for a five-year deferral for tax purposes of CODI for debt reacquired in 2009, followed by recognition of CODI ratably over the succeeding five years. The provision applies for specified types of repurchases including the acquisition of a debt instrument for cash and the exchange of one debt instrument for another.

Note Offering and Credit Facility Amendment

On June 3, 2009, HOC entered into an amendment and waiver to its credit agreement to, among other things: (i) allow for one or more future issuances of additional secured notes or loans which may include, in each case, indebtedness secured on a pari passu basis with the obligations under its senior secured credit facilities, so long as, in each case, among other things, an agreed amount of the net cash proceeds from any such issuance are used to prepay term loans and revolving loans under such senior secured credit facilities at par; (ii) exclude from the maintenance covenant under its senior secured credit facilities (a) notes secured with a first priority lien on the assets of HOC and its subsidiaries that secure the senior secured credit facilities that collectively result in up to \$2 billion of net proceeds (provided that the aggregate face amount of all such notes shall not collectively exceed \$2.2 billion) and

(b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries; (iii) subject to specified procedures, allow HOC to buyback loans from individual lenders at negotiated prices, which may be less than par and (iv) subject to the requirement to make such offers on a pro rata basis to all lenders, allow HOC to agree with certain lenders to extend the maturity of their term loans or revolving commitments, and for HOC to pay increased interest rates or otherwise modify the terms of their loans or revolving commitments in connection with such an extension

During June 2009, HOC issued \$1.375 billion principal amount of 11.25% senior secured notes due 2017 (“Original First Lien Notes”). On September 11, 2009, HOC issued an additional \$720 million principal amount of 11.25% senior secured notes due 2017 (“Additional First Lien Notes”). Both the Original First Lien Notes and the Additional First Lien Notes are secured with a first priority lien on the assets of HOC and the subsidiaries that secure the senior secured credit facilities. HOC used the net proceeds from the September 2009 private offering to repay a portion of its existing term loan and debt under the revolving credit facility under HOC’s senior secured credit facilities, of which approximately \$0.1 billion was used to permanently reduce commitments under the revolving credit facility and approximately \$0.5 billion was used to reduce amounts due on the term loan during the third quarter 2009; remaining amounts were used to temporarily reduce amounts under the revolving credit facility.

Credit Agreement and Incremental Facility Amendment

As of September 30, 2009, our senior secured credit facilities (the “Credit Facilities”) provide for senior secured financing of up to \$7.47 billion, consisting of (i) senior secured term loan facilities in an aggregate principal amount of up to \$5.84 billion maturing on January 28, 2015 and (ii) a senior secured revolving credit facility in an aggregate principal amount of \$ 1.63 billion, maturing January 28, 2014, including both a letter of credit sub-facility and a swingline loan sub-facility. The credit facilities require scheduled quarterly payments on the term loans of \$5 million, with the balance paid at maturity. During the third quarter of 2009, the term loan was reduced by approximately \$0.5 billion and the revolving credit facility was permanently reduced by approximately \$0.1 billion as a result of debt retirements; remaining amounts were used to temporarily reduce amounts under the revolving credit facility. A total of \$6.6 billion in borrowings were outstanding under the Credit Facilities as of September 30, 2009, with an additional \$162.2 million committed to letters of credit that were issued under the Credit Facilities. After consideration of these borrowings and letters of credit, \$663 million of additional borrowing capacity was available to the Company under the Credit Facilities as of September 30, 2009.

The Credit Facilities also allow us to request one or more incremental term loan facilities and/or increase commitments under our revolving facility in an aggregate amount of up to \$1.75 billion. On September 26, 2009, HOC entered into an amendment to its senior secured credit facilities to allow for \$1.0 billion (of the \$1.75 billion available) of incremental term loans under the Credit Facilities (“Incremental Facility Amendment”). On October 15, 2009, HOC borrowed the \$1 billion available under the Incremental Facility Amendment, with the net proceeds used to temporarily repay most of our revolving debt under the Credit Facility. The additional \$1.0 billion borrowed under the Incremental Facility Amendment matures on October 31, 2016 and bears interest at LIBOR plus 750 basis points, subject to a 200 basis point LIBOR floor.

Borrowings under the Credit Facilities bear interest at a rate equal to the then-current LIBOR rate or at a rate equal to the alternate base rate, in each case plus an applicable margin. In addition, on a quarterly basis, we are required to pay each lender (i) a commitment fee in respect of any unused commitments under the revolving credit facility and (ii) a letter of credit fee in respect of the aggregate face amount of outstanding letters of credit under the revolving credit facility. As of September 30, 2009, the Credit Facilities bore interest at LIBOR plus 300 basis points for the term loans and a portion of the revolver loan and at the alternate base rate plus 200 basis points for the remainder of the revolver loan and bore a commitment fee for unborrowed amounts of 50 basis points.

Certain covenants contained in HOC’s credit agreement require the maintenance of a senior first priority secured debt to last twelve months (LTM) Adjusted EBITDA (“Earnings Before Interest, Taxes, Depreciation and Amortization”), as defined in the agreements, ratio (“Senior Secured Leverage Ratio”). The amendment and waiver to our credit agreement excludes from the Senior Secured Leverage Ratio (a) the \$1.375 billion Original First Lien Notes issued June 15, 2009 and the \$720 million Additional First Lien Notes issued on September 11, 2009 and (b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries. Certain covenants contained in HOC’s credit agreement governing its senior secured credit facilities, the indenture and other agreements governing HOC’s 10.0% Second-Priority Senior Secured Notes due 2015 and 2018, Original First Lien Notes and Additional First Lien Notes restrict our ability to take certain actions such as incurring additional debt or making acquisitions if we are unable to meet defined Adjusted EBITDA to Fixed Charges, senior secured debt to LTM Adjusted EBITDA and consolidated debt to LTM Adjusted EBITDA ratios. The covenants that restrict additional indebtedness and the ability to make future acquisitions require an LTM Adjusted EBITDA to Fixed Charges ratio (measured on a trailing four-quarter basis) of 2.0:1.0. Failure to comply with these covenants can result in limiting our long-term growth prospects by hindering our ability to incur future indebtedness or grow through acquisitions.

We believe we are in compliance with HOC’s credit agreement and indentures, including the Senior Secured Leverage Ratio, as of September 30, 2009. If our LTM Adjusted EBITDA were to decline significantly from the level achieved at September 30, 2009, it

could cause us to exceed the Senior Secured Leverage Ratio and could be an Event of Default under HOC's credit agreement. However, we could implement certain actions in an effort to minimize the possibility of a breach of the Senior Secured Leverage Ratio, including reducing payroll and other operating costs, deferring or eliminating certain maintenance, delaying or deferring capital expenditures, or selling assets. In addition, under certain circumstances, our credit agreement allows us to apply the cash contributions received by HOC as a capital contribution to cure covenant breaches. However, there is no guarantee that such contributions will be able to be secured.

Other Financing Transactions

In August 2009, Chester Downs and Marina LLC ("Chester Downs"), a majority-owned subsidiary of HOC, entered into an agreement to borrow under a senior secured term loan in the amount of \$230 million and borrowed such amount, net of original issue discount. The proceeds of the term loan were used to pay off intercompany debt due to HOC and to repurchase equity interests from certain minority partners of Chester Downs. HOC currently owns 95.0% of Chester Downs.

Derivative Instruments

We account for derivative instruments in accordance with ASC 815, (formerly SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities,") and all amendments thereto. ASC 815 requires that all derivative instruments be recognized in the financial statements at fair value. Any changes in fair value are recorded in the statements of operations or in other comprehensive income/(loss), depending on whether the derivative is designated and qualifies for hedge accounting, the type of hedge transaction and the effectiveness of the hedge. The estimated fair values of our derivative instruments are based on market prices obtained from dealer quotes. Such quotes represent the estimated amounts we would receive or pay to terminate the contracts.

Our derivative instruments contain a credit risk that the counterparties may be unable to meet the terms of the agreements. We minimize that risk by evaluating the creditworthiness of our counterparties, which are limited to major banks and financial institutions. Our derivatives are recorded at their fair values, adjusted for the credit rating of the counterparty, if the derivative is an asset, or the Company, if the derivative is a liability.

We use interest rate swaps to manage the mix of our debt between fixed and variable rate instruments. As of September 30, 2009, we have 10 interest rate swap agreements for notional amounts totaling \$6.5 billion. The difference to be paid or received under the terms of the interest rate swap agreements is accrued as interest rates change and recognized as an adjustment to interest expense for the related debt. Changes in the variable interest rates to be paid or received pursuant to the terms of the interest rate swap agreements will have a corresponding effect on future cash flows. The major terms of the interest rate swap agreements are as follows.

<u>Effective Date</u>	<u>Notional Amount (In millions)</u>	<u>Fixed Rate Paid</u>	<u>Variable Rate Received as of September 30, 2009</u>	<u>Next Reset Date</u>	<u>Maturity Date</u>
April 25, 2007	\$ 200	4.898%	0.504%	October 26, 2009	April 25, 2011
April 25, 2007	200	4.896%	0.504%	October 26, 2009	April 25, 2011
April 25, 2007	200	4.925%	0.504%	October 26, 2009	April 25, 2011
April 25, 2007	200	4.917%	0.504%	October 26, 2009	April 25, 2011
April 25, 2007	200	4.907%	0.504%	October 26, 2009	April 25, 2011
September 26, 2007	250	4.809%	0.504%	October 26, 2009	April 25, 2011
September 26, 2007	250	4.775%	0.504%	October 26, 2009	April 25, 2011
April 25, 2008	2,000	4.276%	0.504%	October 26, 2009	April 25, 2013
April 25, 2008	2,000	4.263%	0.504%	October 26, 2009	April 25, 2013
April 25, 2008	1,000	4.172%	0.504%	October 26, 2009	April 25, 2012

Until February 15, 2008, our interest rate swap agreements were not designated as hedging instruments; therefore, gains or losses resulting from changes in the fair value of the swaps were recognized in earnings in the period of the change. On February 15, 2008, eight of our interest rate swap agreements for notional amounts totaling \$3.5 billion were designated as cash flow hedging instruments and on April 1, 2008, the remaining swap agreements were designated as cash flow hedging instruments. At September 30, 2009, we removed the cash flow hedge designation for the \$1.0 billion swap, thus reducing the total notional amount on interest rate swaps designated as cash flow hedging instruments to \$5.5 billion. Upon designation as cash flow hedging instruments, only any measured ineffectiveness is recognized in earnings in the period of change. There was no measured ineffectiveness recognized in earnings for the third quarter 2008 and nine months ended September 30, 2009, compared with a credit of \$13.9 million and a net charge of \$54.6 million, respectively, for the quarter and the period from January 28, 2008 through September 30, 2008, due to changes in the fair values of swap agreements. Due to current interest rate levels, interest rates swaps increased interest expense \$50.0 million and \$147.6 million for the quarter and nine months ended September 30, 2009, respectively,

compared to \$26.6 million and \$50.4 million, respectively, for the quarter ended September 30, 2008, and the period from January 28, 2008 through September 30, 2008. The variable rate did not materially change as a result of the October 26, 2009, reset.

As discussed previously, we borrowed \$1 billion on October 15, 2009 under the Incremental Facility Amendment and used a majority of the net proceeds of these borrowings to pay down outstanding indebtedness under our Credit Facilities. As a result, we no longer have a sufficient amount of outstanding debt under the same terms as our interest rate swap agreements discussed above to support hedge accounting treatment for the full \$6.5 billion in interest rate swaps. Therefore, as of September 30, 2009, we have undesignated the last hedge that we entered into, being the \$1 billion hedge entered into on April 25, 2008. By undesignating this hedge, we will no longer account for this interest rate swap as a hedging instrument. Through September 30, 2009, we had deferred losses on this hedge contract of \$22.3 million into equity, which will now be amortized into income as interest expense over the period from October 1, 2009 through April 25, 2012, the expiration date of the interest rate swap. Likewise, any future changes in fair value of the interest rate swap will be recognized in earnings during the period in which the changes in value occur.

Guarantees of Third-Party Debt and Other Obligations and Commitments

The tables below summarize, as of September 30, 2009, material additions to or changes in HOC's contractual obligations and other commitments through their respective maturity or ending dates, which were disclosed in Exhibit 99.1 in Harrah's Entertainment's 2008 Annual Report on Form 10-K.

Minimum payments to tribes	(10.4)	31.1

The agreements pursuant to which we manage casinos on Indian lands contain provisions required by law that provide that a minimum monthly payment be made to the tribe. That obligation has priority over scheduled repayments of borrowings for development costs and over the management fee earned and paid to the manager. In the event that insufficient cash flow is generated by the operations to fund this payment, we must pay the shortfall to the tribe. Subject to certain limitations as to time, such advances, if any, would be repaid to us in future periods in which operations generate cash flow in excess of the required minimum payment. These commitments will terminate upon the occurrence of certain defined events, including termination of the management contract. Our aggregate monthly commitment for the minimum guaranteed payments, pursuant to these contracts for the three managed Indian-owned facilities now open, which extend for periods of up to 50 months from September 30, 2009, is \$1.2 million. Each of these casinos currently generates sufficient cash flows to cover all of its obligations, including its debt service.

DEBT COVENANT COMPLIANCE

Our credit agreement require the maintenance of a senior first priority secured debt to last twelve months (LTM) Adjusted EBITDA (“Earnings Before Interest, Taxes, Depreciation and Amortization”), as defined in the agreement, ratio (“Senior Secured Leverage Ratio”). The amendment and waiver to our credit agreement excludes from the Senior Secured Leverage Ratio (a) notes secured with a first priority lien on the assets of HOC and its subsidiaries that secure the senior secured credit facilities (including the \$1.375 billion First Lien Notes issued June 15, 2009 and the \$720 million Additional First Lien Notes issued on September 11, 2009) that collectively result in up to \$2 billion in net proceeds (provided that the aggregate face amount of all notes shall not exceed \$2.2 billion) and (b) up to \$250 million aggregate principal amount of consolidated debt of subsidiaries that are not wholly owned subsidiaries. Certain covenants contained in our credit agreement governing our senior secured credit facilities, the indenture and other agreements governing our 10.0% Second-Priority Senior Secured Notes due 2015 and 2018 restrict our ability to take certain actions such as incurring additional debt or making acquisitions if we are unable to meet defined Adjusted EBITDA to Fixed Charges, senior secured debt to LTM Adjusted EBITDA and consolidated debt to LTM Adjusted EBITDA ratios. The covenants that restrict additional indebtedness and the ability to make future acquisitions require an LTM Adjusted EBITDA to Fixed Charges ratio (measured on a trailing four-quarter basis) of 2.0:1.0. Failure to comply with these covenants can result in limiting our long-term growth prospects by hindering our ability to incur future indebtedness or grow through acquisitions.

We believe we are in compliance with our credit agreement and indentures, including the Senior Secured Leverage Ratio, as of September 30, 2009. If our LTM Adjusted EBITDA were to decline significantly from the level achieved at September 30, 2009, it could cause us to exceed the Senior Secured Leverage Ratio and could be an Event of Default under our credit agreement. However, we could implement certain actions in an effort to minimize the possibility of a breach of the Senior Secured Leverage Ratio, including reducing payroll and other operating costs, deferring or eliminating certain maintenance, delaying or deferring capital expenditures, or selling assets. In addition, under certain circumstances, our credit agreement allows us to apply the cash contributions received by HOC as a capital contribution to cure covenant breaches. However, there is no guarantee that such contributions will be able to be secured.

EBITDA is defined as income from continuing operations plus interest, income taxes, depreciation and amortization. EBITDA is not a recognized term under U.S. GAAP and does not purport to be an alternative to income from continuing operations as a measure of operating performance or to cash flows from operations as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management’s discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Management believes EBITDA is helpful in reviewing business performance because EBITDA excludes the results of decisions that are outside the control of operating management. EBITDA can differ significantly from company to company depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which companies operate and capital investments. Management compensates for the limitations of using non-GAAP financial measures by using them to supplement U.S. GAAP results to provide a more complete understanding of the factors and trends affecting the business than U.S. GAAP results alone. Because not all companies use identical calculations, these presentations of EBITDA may not be comparable to other similarly titled measures of other companies. LTM Adjusted EBITDA is defined as EBITDA further adjusted to exclude unusual items and other adjustments required or permitted in calculating covenant compliance under the indenture and other agreements governing the 10.0% Second-Priority Senior Notes and/or our senior secured credit facilities. We believe that the inclusion of supplementary adjustments to EBITDA applied in presenting LTM Adjusted EBITDA are appropriate to provide additional information to investors about certain material non-cash items and about unusual items that we do not expect to continue at the same level in the future. Because not all companies use identical calculations, our presentation of LTM Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.
