- (2) Total figures for 2019 exclude results of operations for Presque Isle Downs and Nemacolin.
- (3) Figures are for Presque Isle Downs and Nemacolin for the three months ended March 31, 2018.
- (4) Figures are for Grand Victoria ("GV") and Tropicana Entertainment, Inc. ("TEI") for the three months ended March 31, 2018. Such figures are based on unaudited internal financial statements and have not been reviewed by the Company's auditors and do not conform to GAAP. Total figures for 2018 include combined results of operations for ERI, TEI and GV and exclude results of operations for Presque Isle Downs and Nemacolin. Such presentation does not conform with GAAP or the Securities and Exchange Commission rules for pro forma presentation;
- (5) however, we believe that the additional financial information will be helpful to investors in comparing current results with results of prior periods. This is non-GAAP data and should not be considered a substitute for data prepared in accordance with GAAP, but should be viewed in addition to the results of the operations reported by the Company.
- (6) Adjusted EBITDA is not a GAAP measurement and is presented solely as a supplemental disclosure because the Company believes it is a widely used measure of operating performance in the gaming industry. See "Reconciliation of GAAP Measures to Non-GAAP Measures" below for a definition of Adjusted EBITDA and a quantitative reconciliation of Adjusted EBITDA to operating income (loss), which the Company believes is the most comparable financial measure calculated in accordance with GAAP.

"Eldorado's record first quarter results reflect our expanded, geographically diversified regional gaming platform and benefited from our unique operating initiatives which drove a 6.4% rise in Adjusted EBITDA to \$166.7 million on a 4.4% net revenue decline. First quarter growth was achieved despite significant weather disruption across the bulk of the portfolio in the 2019 first quarter. Our Black Hawk properties were impacted by ongoing renovation-related disruptions to large portions of the hotel rooms and gaming floors which will be completed in the second quarter. Notwithstanding these issues, our growth was broad based across the property portfolio with Adjusted EBITDA rising at 17 of our 26 properties, including double-digit Adjusted EBITDA growth at nine properties. Overall, Adjusted EBITDA increased at four of our five reporting segments as our margin enhancement and operating efficiency initiatives led to a 270 basis point year-over-year rise in the consolidated adjusted EBITDA margin to a first quarter record of 26.6%," said Tom Reeg, Chief Executive Officer of Eldorado.

"We continue to make significant progress on our synergy plan following our acquisition of Tropicana Entertainment and the Grand Victoria Casino in the second half of 2018. Our implementation of best practices across the property portfolio continues to benefit our legacy properties as well, resulting in expanded margins and elevated guest service and satisfaction across our operations. We expect to continue to grow property margins across the portfolio as we focus on extracting additional efficiencies from our expanded scale in areas such as marketing, advertising, purchasing, player promotion and food and beverage operations.

"Our successful execution on return-focused amenity upgrades remains another factor in our ability to drive improved operating performance. In Reno, we have completely transformed THE ROW properties over the last several years with the renovation of approximately 50% of the 4,071 hotel rooms, new food and beverage outlets, the addition of a world-class spa and other enhancements that have positioned THE ROW as a market leader. We also continue to make progress in conjunction with our partner, The Cordish Companies, on the master plan and design concept that is expected to transform Isle Casino Racing Pompano Park and the surrounding real estate to a must see mixed-use entertainment and hospitality destination. In Black Hawk we are renovating all of the hotel rooms at both properties and updating the casino floors in anticipation of new visitors to the market beginning later this year. Finally, at Tropicana Atlantic City we recently opened an expansive, new sportsbook that has created great excitement and positioned the property as a leader in the market for sports wagering enthusiasts which is translating into increased visitation and higher table game play, food and beverage revenue and hotel occupancy while also allowing us to realize marketing efficiencies."

Balance Sheet, Liquidity and Return of Capital

At March 31, 2019, Eldorado had \$216.9 million in cash and cash equivalents, excluding restricted cash. Outstanding indebtedness at March 31, 2019 totaled \$3.1 billion, including approximately \$40.0 million outstanding on the Company's revolving credit facility as Eldorado paid down approximately \$205.0 million of outstanding borrowings under the revolving credit facility in the 2019 first quarter, which included approximately \$150 million of proceeds from the sale of Presque Isle Downs that were applied to temporarily repay borrowings under the revolving credit facility. The terms of our indentures require us to make an offer to purchase a portion of our outstanding senior notes with the excess proceeds from the sale unless we permanently reduce debt or make specified acquisitions or capital expenditures within 365 days of the sale. Capital expenditures in the first quarter of 2019 totaled \$38.4 million.

The Company did not repurchase any shares in the 2019 first quarter and continues to have approximately \$140.9 million remaining on its current stock repurchase program.

Summary of 2019 First Quarter Region Results

The property results for Presque Isle Downs and Casino and Lady Luck Nemacolin have been excluded from the results of operations in this press release and property results for Grand Victoria and properties owned by TEI have been included in results of operations for the first quarter of 2018, which preceded the date of acquisition of such properties. Such presentation does not conform with GAAP or the Securities and Exchange

Commission rules for pro forma presentation; however, we believe that the additional financial information will be helpful to investors in comparing current results with results of prior periods.

West Region first quarter Adjusted EBITDA declined 8.2% to \$24.0 million. The region's Adjusted EBITDA margin improved 10 basis points to 20.4% as the Company was successful in managing labor costs to match the lower volumes at THE ROW and Black Hawk properties, primarily related to weather and construction disruption, respectively.

Net revenue for the Midwest Region properties for the quarter ended March 31, 2019 decreased approximately 4.0% to \$96.8 million compared to \$100.8 million in the prior-year period, while operating income rose to \$27.8 million from \$26.7 million in the year-ago quarter. Midwest Region first quarter Adjusted EBITDA rose approximately 5.2% to \$36.3 million as the Adjusted EBITDA margin for the segment rose 330 basis points to 37.5%. The Adjusted EBITDA margin for the segment rose 410 basis points to 29.1%.

East Region(Eldorado Scioto Downs Racino, Mountaineer Casino Racetrack and Resort and Tropicana Casino and Resort, Atlantic City)

Net revenue for the East Region properties for the quarter ended March 31, 2019 declined approximately 0.9% to \$158.2 million compared to \$159.7 million in the prior-year period, while operating income grew to \$27.3 million from \$24.5 million in the year-ago quarter. East Region first quarter Adjusted EBITDA rose 4.5% to \$39.5 million compared to Adjusted EBITDA of \$37.8 million in the prior-year period as the East Region's Adjusted EBITDA margin improved 130 basis points to 25.0%.

Central Region(Grand Victoria Casino, Tropicana Evansville and Lumière Place)

Net revenue for the Central Region for the quarter ended March 31, 2019 decreased approximately 3.5% to \$120.5 million compared to \$124.9 million in the prior-year period, while operating income increased to \$27.1 million from \$27.0 million in the year-ago quarter. Central Region Adjusted EBITDA for the first quarter rose 9.1% to \$38.3 million compared to Adjusted EBITDA of \$35.1 million in the prior-year period as the Central Region's Adjusted EBITDA margin improved 370 basis points to 31.8%. Adjusted EBITDA improved by double digits at two of the three properties.

Reconciliation of GAAP Measures to Non-GAAP Measures

Adjusted EBITDA (defined below), a non-GAAP financial measure, has been presented as a supplemental disclosure because it is a widely used measure of performance and basis for valuation of companies in our industry and we believe that this non-GAAP supplemental information will be helpful in understanding the Company's ongoing operating results. Management has historically used Adjusted EBITDA when evaluating operating performance because we believe that the inclusion or exclusion of certain recurring and non-recurring items is necessary to provide a full understanding of our core operating results and as a means to evaluate period-to-period results. Adjusted EBITDA represents operating income (loss) before depreciation and amortization, stock-based compensation, transaction expenses, severance expense, selling costs associated with the disposition of properties, proceeds from terminated sales, preopening expenses, business interruption insurance proceeds, real estate tax settlements, other than temporary impairments on investments, impairment charges, equity in income (loss) of unconsolidated affiliates, (gain) loss on the sale or disposal of property and equipment, (gain) loss associated with the sales of Presque Isle Downs and Nemaquin and other non-cash regulatory gaming assessments. Adjusted EBITDA also excludes the expense associated with our Master Lease with GLPI as the transaction was accounted for as a financing obligation. Adjusted EBITDA is not a measure of performance or liquidity calculated in accordance with accounting principles generally accepted in the United States ("US GAAP"), is unaudited and should not be considered an alternative to, or more meaningful than, net income (loss) as an indicator of our operating performance. Uses of cash flows that are not reflected in Adjusted EBITDA include capital expenditures, interest payments, income taxes, debt principal repayments, payments under our Master Lease and certain regulatory gaming assessments, which can be significant. As a result, Adjusted EBITDA should not be considered as a measure of our liquidity. Other companies that provide EBITDA information may calculate EBITDA differently than we do. The definition of Adjusted EBITDA may not be the same as the definitions used in any of our debt agreements.
