Caesars Entertainment Reports Financial Results for the Third Quarter of 2016

LAS VEGAS, Nov. 7, 2016 /PRNewswire/ -- Caesars Entertainment Corporation (NASDAQ: CZR) today reported third quarter of 2016 results as summarized in the discussion below, which highlights certain GAAP and non-GAAP financial measures on a consolidated basis.

CAESARS ENTERTAINMENT®

Highlights

- | Net revenues for Continuing CEC increased 3.0% year-over-year to \$986 million primarily attributable to strong growth in the Las Vegas region.
- | Net income for Continuing CEC, before including the effect of noncontrolling interest, was \$5 million compared to a net loss of \$756 million in the third quarter of 2015 and was largely due to a \$4.2 billion pre-tax gain on the sale of Caesars Interactive Entertainment's ("CIE") social and mobiles games business, partially offset by an accrual of \$3.0 billion related to the restructuring of Caesars Entertainment Operating Company, Inc. ("CEOC").
- | Adjusted EBITDA for Continuing CEC grew 9.3% year-over-year to \$269 million.
- | Cash ADR in Las Vegas was up 10.6% due to increased resort fees, effective hotel yield management and improved pricing power due to room product enhancements.
- | On September 23, 2016, CIE sold its social and mobile games business (the "SMG Business") for \$4.4 billion in cash.
- | In October, CEC and CEOC agreed to the terms of an amended plan of reorganization and gained the support of CEOC's major creditor groups, paving the way for a successful conclusion to CEOC's bankruptcy in 2017.

"We achieved another solid quarter of performance, with a 3 percent increase in revenues paced by strong results in Las Vegas, our largest market," said Mark Frissora, President and Chief Executive Officer of Caesars Entertainment. "We also continued to expand margins, a testament to the progress we have made to manage costs effectively while delivering enhanced customer service. Going forward, we remain focused on driving a balanced agenda of revenue growth and productivity gains to increase margins and cash flow. Our progress year to date gives us confidence that we are on the right path as we strive to maximize value for our stakeholders."

Summary Financial Data

The results of CEOC and its subsidiaries are no longer consolidated with Caesars subsequent to CEOC and certain of its United States subsidiaries (the "Debtors") voluntarily filing for reorganization under Chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code") on January 15, 2015. In October, all of CEOC's major creditor groups signed amended restructuring support agreements and have agreed to the terms of the latest plan of reorganization. This is a key milestone in CEC and CEOC's efforts to implement a consensual restructuring and paves the way toward a successful conclusion of CEOC's bankruptcy in 2017.

In the table below, "Continuing CEC" represents Caesars Entertainment Resort Properties, LLC ("CERP"), Caesars Growth Partners, LLC ("CGP") (inclusive of CIE), other non-operating subsidiaries and associated parent company and elimination adjustments that represent the Caesars consolidated reporting entity as of September 30, 2016, and for subsequent periods.

Third Quarter of 2016 Financial Results

We view each casino property as an operating segment and currently aggregate all such casino properties into two reportable segments based on management's view, which aligns with their own ownership and underlying credit structures: CERP and CGP. Through June 30, 2016, we aggregated the operating segments within CGP into two separate reportable segments: Caesars Growth Partners Casino Properties and Developments ("CGP Casinos") and CIE. On September 23, 2016, CIE sold its SMG Business for cash consideration of \$4.4 billion, subject to customary purchase price adjustments, and retained only its World Series of Poker ("WSOP") and regulated online real money gaming businesses. The SMG Business represented the majority of CIE's operations and is being classified as a discontinued operation for all periods presented effective in the third quarter of 2016. After excluding the SMG Business from CIE's continuing operations, CIE is no longer considered a separate reportable segment from CGP Casinos based on management's view. Therefore, CGP Casinos and CIE have been combined for all periods presented to form the CGP segment. CEOC was a reportable segment until its deconsolidation effective January 15, 2015.

Segment results in this release are presented consistent with the way Caesars management assesses these results and allocates resources, which is a consolidated view that adjusts for the impact of certain transactions between reportable segments within Caesars, as described below. Accordingly, the results of certain reportable segments presented in this filing differ from the financial statement information presented in their stand-alone filings. "Other" includes parent, consolidating, and other adjustments to reconcile to consolidated Caesars results. All comparisons are to the same period of the previous year.

Continuing CEC

Net revenue for Continuing CEC increased 3.0% year-over-year to \$986 million primarily attributable to strong growth in the Las Vegas region, partially offset by revenue declines in Atlantic City and New Orleans and unfavorable year over year hold. Income from operations decreased \$128 million to a loss of \$44 million mainly due to an increase in CIE stock-based compensation awards related to the sale of CIE's SMG Business. Net income, before including the effect of non-controlling interest, increased to \$5 million from a net loss of \$756 million mainly due to a \$4.2 billion pre-tax gain on the sale of CIE's SMG Business, which was partially offset by a \$3.0 billion accrual related to CEC's estimate of the additional amount it will pay to support the restructuring of CEOC. Property EBITDA increased 9.5% to \$287 million and adjusted EBITDA increased 9.3% to \$269 million mainly due to higher revenues and efficiency initiatives.

CERP

CERP owns and operates six casinos in the United States and The LINQ promenade, along with leasing Octavius Tower at Caesars Palace Las Vegas to CEOC and gaming space at The LINQ promenade to CGP.

Net revenues for the third quarter of 2016 were \$569 million, up 5.0% primarily due to strong growth in gaming and hospitality revenues in Nevada. While CERP experienced strong hotel revenue growth, there were over 32,000 room nights out of service in Las Vegas in the quarter due to room renovations, primarily concentrated at Paris Las Vegas. Casino revenues were \$289 million, up 2.8% from the prior year primarily due to higher gaming volumes in Nevada as well as favorable year over year hold. Room revenues rose 6.5% in the quarter to \$147 million mainly due to higher hotel rates, improved hotel yield and resort fees, which drove a 12.0% increase in cash ADR. Food and beverage revenues were \$134 million, down 2.2% largely due to less banquet business.

Income from operations increased 6.1% to \$104 million, net income increased \$6 million to \$6 million and adjusted EBITDA increased 8.3% to \$170 million. These increases were mainly due to higher revenues and marketing and operational efficiencies. Hold was estimated to have a positive effect on operating income of between \$5 million and \$10 million in the quarter relative to our expected hold and between \$0 million and \$5 million when compared to the prior year period.

CGP

CGP owns and operates six casinos in the United States, primarily in Las Vegas, as well as CIE. CIE owns and operates regulated online real money gaming and the WSOP tournaments and brand.

Net revenues for the third quarter of 2016 were \$422 million, a 1.0% increase primarily attributable to higher hotel revenues in Las Vegas as well as increases in entertainment revenue mainly due to the AXIS Theater at Planet Hollywood. These positive drivers were offset by unfavorable year over year hold and lower food and beverage revenues. Casino revenues were \$253 million, down 3.1% from the prior year mainly driven by unfavorable year over year hold at Harrah's New Orleans due to exceptional hold in the same period last year. Room revenues increased 9.8% to \$90 million mainly due to higher hotel rates, resort fees and improved hotel yield. Food and beverage revenues were \$67 million, down 9.5% mainly due to less banquet business in Las Vegas.

Income from operations decreased \$141 million to a loss of \$109 million mainly due to an increase in stock-based compensation expense and transaction costs related to the sale of CIE's SMG Business. Net income, before including the

effect of noncontrolling interest, increased from \$21 million to \$3.9 billion mainly due to a \$4.2 billion pre-tax gain on the sale of CIE's SMG Business. Adjusted EBITDA increased 2.0% to \$100 million due to higher revenues and efficiency initiatives. Hold was estimated to have a minimal effect on operating income relative to our expected hold and an unfavorable effect of between \$5 million and \$10 million when compared to the prior year period.

CEOC and CES

CEOC owns and operates 19 casinos in the United States and nine internationally, most of which are located in England, and manages 13 casinos, which include the six CGP casinos and seven casinos for unrelated third parties.

Caesars Enterprise Services ("CES") is a joint venture among CERP, CEOC, and a subsidiary of CGP that provides certain corporate and administrative services to their casino properties.

Effective October 2014, substantially all of our properties are managed by CES with the remaining properties to be transitioned upon regulatory approval. Prior to this, our properties were managed by CEOC.

Cash and Available Revolver Capacity

CEC is primarily a holding company with no independent operations, employees, or material debt issuances of its own. CEC's primary assets as of September 30, 2016, consist of \$188 million in cash and cash equivalents and its ownership interests in CEOC, CERP and CGP. CEC's cash includes \$107 million held by insurance captives. Each of the subsidiary entities comprising Caesars Entertainment's consolidated financial statements have separate debt agreements with restrictions on usage of the respective entity's capital resources. CGP is a variable interest entity that is consolidated by Caesars Entertainment, but is controlled by its sole voting member, Caesars Acquisition Company ("CAC"). CAC is a managing member of CGP and therefore controls all decisions regarding liquidity and capital resources of CGP. CEOC was deconsolidated effective January 15, 2015, and therefore, has not been included in the table below. In the table below, "Other" reflects CEC and its other direct subsidiaries.

CEC has limited unrestricted cash available to meet its financial commitments, primarily resulting from significant expenditures made to defend against litigation related to the CEOC restructuring and to support a plan of reorganization for CEOC. While the cash forecast at CEC currently contemplates liquidity to be sufficient through December 31, 2016, the CEC cash balance will be consumed by expenses associated with the CEOC restructuring unless we identify additional sources of liquidity to meet CEC's ongoing obligations as well as to meet its commitments to support the CEOC restructuring. The completion of the merger with CAC is expected to allow CEC to fulfill its financial commitments in support of the restructuring; under the terms of the restructuring, all related litigation is expected to be resolved; and CEC has been allotted a portion of the proceeds from the sale of CIE's SMG Business to fund certain expenses incurred related to the restructuring. If CEC is unable to obtain additional sources of cash when needed, in the event of a material adverse ruling on one or all of our ongoing litigation matters, or if CEOC does not emerge from bankruptcy on a timely basis on terms and under circumstances satisfactory to CEC, it is likely that CEC would seek reorganization under Chapter 11 of the Bankruptcy Code.

CAESARS ENTERTAINMENT CORPORATION
SUPPLEMENTAL INFORMATION
RECONCILIATION OF NET INCOME/(LOSS) ATTRIBUTABLE TO CAESARS ENTERTAINMENT CORPORATION
TO PROPERTY EBITDA AND ADJUSTED EBITDA

Property earnings before interest, taxes, depreciation and amortization ("EBITDA") is presented as a measure of the Company's performance. Property EBITDA is defined as revenues less property operating expenses and is comprised of net income/(loss) before (i) interest expense, net of interest capitalized and interest income, (ii) income tax provision, (iii) depreciation and amortization, (iv) corporate expenses, and (v) certain items that the Company does not consider indicative of its ongoing operating performance at an operating property level. As a result of the sale of the SMG Business, we have determined that CIE stock-based compensation expense should be excluded from Property EBITDA as management no longer considers such expense to be indicative of Caesars Entertainment's ongoing consolidated or segment operating performance. Therefore, Property EBITDA has been recast for prior periods to be consistent to the current year presentation.

In evaluating Property EBITDA you should be aware that, in the future, the Company may incur expenses that are the same or similar to some of the adjustments in this presentation. The presentation of Property EBITDA should not be construed as an inference that future results will be unaffected by unusual or unexpected items.

Property EBITDA is a non-GAAP financial measure commonly used in our industry and should not be construed as an alternative to net income/(loss) as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with GAAP). Property EBITDA may not be comparable to similarly titled measures reported by other companies within the industry. Property EBITDA is included because management uses Property EBITDA to measure performance and allocate resources, and believes that Property EBITDA provides investors with additional information consistent with that used by management.

Adjusted EBITDA is defined as EBITDA further adjusted to exclude certain non-cash and other items as exhibited in the following reconciliation, and is presented as a supplemental measure of the Company's performance. Management believes that Adjusted EBITDA provides investors with additional information and allows a better understanding of the results of operational activities separate from the financial impact of decisions made for the long-term benefit of the Company. In addition, compensation of management is in part determined by reference to certain of such financial information. As a result, we believe this supplemental information is useful to investors who are trying to understand the results of the Company.

Because not all companies use identical calculations, the presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.
