* Not meaningful

^(a) Adjustment for pre-disposition results of operations reflecting the subtraction of results of operations for the LINQ Promenade, for the relevant periods. Such figures are based on unaudited internal financial statements and have not been reviewed by the Company's auditors for the periods presented. The additional financial information is included to enable the comparison of current results with results of prior periods.

^(b) Adjusted EBITDA is not a GAAP measurement and is presented solely as a supplemental disclosure because the Company believes it is a widely used measure of operating performance in the gaming industry. See "Reconciliation of GAAP Measures to Non-GAAP Measures" below for a definition of Adjusted EBITDA and a quantitative reconciliation of Adjusted EBITDA to net income (loss) attributable to Caesars, which the Company believes is the most comparable financial measure calculated in accordance with GAAP.

Balance Sheet and Liquidity

As of March 31, 2025, Caesars had \$12.3 billion in aggregate principal amount of debt outstanding. Total cash and cash equivalents were \$884 million, excluding restricted cash of \$125 million.

<i>(In millions)</i>	March 31, 2025		December 31, 2024	
Cash and cash equivalents	\$	884	\$	866
Bank debt and loans	\$	5,912	\$	5,904
Notes		6,346		6,346
Other long-term debt		44		44
Total outstanding indebtedness	\$	12,302	\$	12,294
Net debt ^(a)	\$	11,418	\$	11,428

^(a) Net debt is a non-GAAP measurement and is presented solely as a supplemental disclosure because the Company believes it is helpful in understanding our financial position. Net debt is equal total indebtedness less cash and cash equivalents.

As of March 31, 2025, cash on hand and borrowing capacity was as follows:

<i>(In millions)</i>	March 31, 2025	
Cash and cash equivalents	\$	884
Revolver capacity ^(a)		2,235
Revolver capacity committed to letters of credit		(79)
Available revolver capacity committed as regulatory requirement		(46)
Total ^(b)	\$	<u>2,994</u>

^(a) Revolver capacity includes \$2.25 billion under our CEI Revolving Credit Facility, maturing in January 2028 (subject to a springing maturity in the event certain other long-term debt of Caesars is not extended or repaid), and \$25 million under the CVA Revolving Credit Facility, maturing on April 26, 2029, less \$40 million reserved for specific purposes.

^(b) Excludes approximately \$75 million of additional borrowing available under the CVA Delayed Draw Term Loan.

"We continue to expect 2025 to benefit from meaningfully lower year-over-year capital expenditures and cash interest expense. When combined with strong operating fundamentals, free cash flow this year will show a significant improvement. Accelerating free cash flow in 2025 will allow us to continue to reduce debt alongside opportunistic share repurchases during market dislocations. To that end, we repurchased \$100 million of our shares during April at an average price of \$23.84 per share," said Bret Yunker, Chief Financial Officer.

Non-GAAP Measures

Adjusted EBITDA (described below), a non-GAAP financial measure, has been presented as a supplemental disclosure because it is a widely used measure of performance and basis for valuation of companies in our industry and we believe that this non-GAAP supplemental information will be helpful in understanding our ongoing operating results. Management has historically used Adjusted EBITDA when evaluating operating performance because we believe that the inclusion or exclusion of certain recurring and non-recurring items is necessary to provide a full understanding of our core operating results and as a means to evaluate period-to-period results. Adjusted EBITDA represents net income (loss) before interest income and interest expense, net of interest capitalized, (benefit) provision for income taxes, depreciation and amortization, stock-based compensation expense, (gain) loss on extinguishment of debt, impairment charges, other (income) loss, net income (loss) attributable to noncontrolling interests, transaction costs associated with our acquisitions, developments and divestitures, and non-cash changes in equity method investments. Adjusted EBITDA also excludes the expense associated with certain of our leases as these transactions were accounted for as financing obligations and the associated expense is included in interest expense. Adjusted EBITDA is not a measure of performance or liquidity calculated in accordance with accounting principles generally accepted in the United States (“GAAP”). Adjusted EBITDA is unaudited and should not be considered an alternative to, or more meaningful than, net income (loss) as an indicator of our operating performance. Uses of cash flows that are not reflected in Adjusted EBITDA include capital expenditures, interest payments, income taxes, debt principal repayments, distributions to our noncontrolling interest owners and payments under our leases with affiliates of GLPI and VICI Properties, Inc., which can be significant. As a result, Adjusted EBITDA should not be considered as a measure of our liquidity. The reconciliation of Adjusted EBITDA to net income (loss) attributable to Caesars is attached at the end of this press release.

Net debt (defined above), a non-GAAP measure, has been presented as a supplemental disclosure because we believe it is helpful in understanding our financial condition. The reconciliation of net debt to total debt is set forth above.

Other companies that provide similar non-GAAP measures may calculate them differently than we do, and the definitions may not be the same as the definitions we used in any of our debt agreements.
