\* Not meaningful

- (a) Adjustment for pre-consolidation, pre-acquisition, and pre-disposition results of operations on a net basis reflecting (i) addition of results of operations for Horseshoe Baltimore for periods prior to the consolidation resulting from the Company's increase in its ownership interest on August 26, 2021 and William Hill prior to its acquisition on April 22, 2021, for the three and six months ended June 30, 2021 and (ii) subtraction of results of operations for MontBleu, Evansville, Belle of Baton Rouge and discontinued operations of Caesars Southern Indiana, Harrah's Louisiana Downs and Caesars UK group prior to divestiture, for the relevant periods. Such figures are based on unaudited internal financial statements and have not been reviewed by the Company's auditors for the periods presented. The additional financial information is included to enable the comparison of current results with results of prior periods.
- (b) Adjusted EBITDA is not a GAAP measurement and is presented solely as a supplemental disclosure because the Company believes it is a widely used measure of operating performance in the gaming industry. See "Reconciliation of GAAP Measures to Non-GAAP Measures" below for a definition of Adjusted EBITDA and a quantitative reconciliation of Adjusted EBITDA to net income (loss), which the Company believes is the most comparable financial measure calculated in accordance with GAAP.

## Reconciliation of GAAP Measures to Non-GAAP Measures

Adjusted EBITDA (described below), a non-GAAP financial measure, has been presented as a supplemental disclosure because it is a widely used measure of performance and basis for valuation of companies in our industry and we believe that this non-GAAP supplemental information will be helpful in understanding our ongoing operating results. Management has historically used Adjusted EBITDA when evaluating operating performance because we believe that the inclusion or exclusion of certain recurring and non-recurring items is necessary to provide a full understanding of our core operating results and as a means to evaluate period-to-period results. Adjusted EBITDA represents net income (loss) before interest income or interest expense, net of interest capitalized, (benefit) provision for income taxes, (gain) loss on investments and marketable securities, depreciation and amortization, stock-based compensation, impairment charges, transaction expenses, severance expense, selling costs associated with the divestitures of properties, equity in income (loss) of unconsolidated affiliates, (gain) loss on the sale or disposal of property and equipment, (gain) loss related to divestitures, changes in the fair value of certain derivatives and certain non-recurring expenses such as sign-on and retention bonuses, business optimization expenses and transformation expenses, certain litigation awards and settlements, contract exit or termination costs, and certain regulatory settlements. Adjusted EBITDA also excludes the expense associated with certain of our leases as these transactions were accounted for as financing obligations and the associated expense is included in

interest expense. Adjusted EBITDA is not a measure of performance or liquidity calculated in accordance with GAAP. It is unaudited and should not be considered an alternative to, or more meaningful than, net income (loss) as an indicator of our operating performance. Uses of cash flows that are not reflected in Adjusted EBITDA include capital expenditures, interest payments, income taxes, debt principal repayments, payments under our leases with affiliates of GLPI and VICI Properties, Inc. and certain regulatory gaming assessments, which can be significant. As a result, Adjusted EBITDA should not be considered as a measure of our liquidity. Other companies that provide EBITDA information may calculate Adjusted EBITDA differently than we do. The definition of Adjusted EBITDA may not be the same as the definitions used in any of our debt agreements.
